GENERAL DESCRIPTION

REMOTE/PRINT is a special purpose utility designed to convert B1000 printer backup files into a format acceptable to the AP300 series remote printers.

The program will accept B1000 Disk or Tape printer backup files. The backup files must be created by software release 9.0 or later. It will not accept printer backup files from earlier releases.

ERROR MESSAGES

1. FILE NOT PRESENT. RE-ENTER SPECS.

The input file could not be found. Re-enter the correct file name or enter NULL to terminate the program.

2. FILE NOT BACKUP. RE-ENTER SPECS.

The input file is not a B1000 backup file, so it cannot be printed. Enter the name of a B1000 backup file or enter NULL to terminate the program.

3. THERE ARE NO RECORDS TO PROCESS.

An EOF branch was encountered while looking for the Control record in the backup file. Program control returns to ENTER SPECS.

4. BACKUP FILE MUST BE CREATED ON RELEASE 9.0 OR LATER.

The release level in the control record indicates that the backup file was created on an earlier release than 9.0. Program control returns to ENTER SPECS.
