Using a working set limited to 1650 pages and 80 pages of data storage (excluding image)

Total number object records read (both passes): 528  
of which 262 were in libraries and 18 were DEBUG data records containing 712 bytes

Number of modules extracted explicitly = 9  
with 2 extracted to resolve undefined symbols

6 library searches were for symbols not in the library searched

A total of 0 global symbol table records was written
