Software Product Description

RSX-11M OPTIONAL SOFTWARE CROSS REFERENCE TABLE

This table has been prepared to assist in determining which RSX-11M optional software products are supported by version 4.0 of RSX-11M and which are supported by RSX-11M, Version 4.1. Refer to the appropriate SPD for all other details on a particular product.

Customers running these software products listed below whose Support Category Warranty has expired, may order under license the applicable Out-of-Warranty software update (H-kit) at the prevailing rate for such update in order to come up to the current version. Refer to the appropriate SPD for all other details on a particular product.

For some products this table may indicate support on operating system versions other than those stated in the product's SPDs. In such cases, this table takes precedence.
