Alpine Computing MicroAge, a NeXT Premium Gold Reseller and the nation's premier source for NEXTSTEP-compatible hardware products, is pleased to offer its price-competitive, high-performance, diverse line of 100%-guaranteed, NEXTSTEP-compatible hardware.

In this edition of the catalog Alpine Computing proudly announces the Alpine NXstation by Lexar. With a VESA bus upgradeable to PCI and Opti with the easy addition of a simple riser card, as well as a ZIF socket for Pentium upgrades, the NXstation offers expandability well into the future. Currently Alpine and Lexar are certifying the Alpine NXstation by Lexar for future inclusion in the NeXT Hardware Compatibility Guide.

Alpine Computing guarantees all systems in this catalog as NEXTSTEP-compatible and will preinstall NEXTSTEP on any computer in this catalog—within certain guidelines, you need not purchase the software from us. Alpine offers GSA pricing, discounts with large orders, and educational discounts on selected products with proof of status. Additionally, Alpine can fulfill large orders with custom integration and assembly. Alpine is a MicroAge franchisee with superior buying power, accepts corporate purchasing orders on approved credit, offers leasing, and accepts educational and government purchasing orders with no approval necessary.

Alpine Computing is the most dedicated NEXTSTEP-compatible hardware reseller in the marketplace. The home to the Salt Lake area NeXT Group and a supporter of the Utah Computer Society, Alpine Computing has a large stake in helping NEXTSTEP flourish in the marketplace and in supporting the national NeXT community with "plug-'n'-play" NEXTSTEP workstations. Alpine Computing's goal: to make purchasing NEXTSTEP hardware as easy and safe as ordering black hardware from NeXT. But don't listen to us—ask any of Alpine's NEXTSTEP clients.

Alpine Computing updates this Product Catalog as NeXT makes available new hardware configurations. For the latest Product Catalog, request the latest edition from Alpine Computing at 801/268-8877. To retrieve this catalog via the Internet ftp to ftp.byu.edu with the login anonymous and any password or send email to nxstore@magnusson.uucp ({uunet, hellgate}!unislc!uplherc!cusa!neb!magnusson!nxstore). For current pricing information please contact Alpine Computing.

For a complete list of hardware requirements for running NEXTSTEP, request the latest edition of the NEXTSTEP Hardware Compatibility Guide from NeXT at 800/TRY-NeXT. NeXT's guide and other information are also available from *NeXTanswers*, NeXT's free document-retrieval system. For *NeXTanswers* by fax, call 415/780-3990 from a touch-tone phone. For *NeXTanswers* via the Internet ftp to ftp.next.com with the login anonymous and any password or send email to nextanswers@next.com with the two-word subject: INDEX HELP.

Thanks for joining the move to the world's best NEXTSTEP hardware vendor. We're glad to have you as part of our circle of friends.

Kris Magnusson
NEXTSTEP Specialist
Alpine Computing MicroAge
