@ConnNet = Southern New England Telephone, providing access to TYMNET through their statewide packet switching network. To logon, dial the local ConnNet access number. The ConnNet network responds with "WELCOME TO CONNNET PLEASE LOGON: \*". At the asterisk enter: Set?3:127,4:20,15:0 and press return. Conneet will answer Par 3:127,4:20,15:0 and redisplay the "\*". Type in: .T (capital letters) and press carriage return. Tymnet responds and regular logon procedures follow.

STAT MUX = ALASCOM, the Alaska state telecommunications authority, providing access to TYMNET through their packet switching network. Some locations are served by Statistical Multiplexers.

Use the following procedure to access TABS:

1) After the STAT MUX modem answers it will output garbage characters. Once these have been observed, enter two carriage returns.

2) Type your terminal identifier character then enter a carriage return.

The rest of the logon is standard Tymnet.
