Solutions For Your Growing Business Come with
One Name...

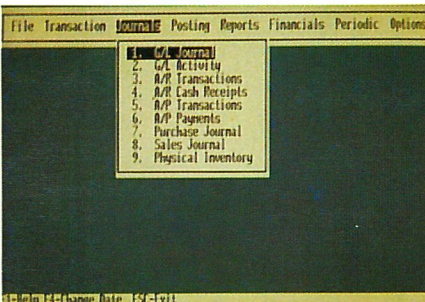

DacEasy™

When Dac Software first introduced DacEasy Accounting in 1985, small to medium-sized businesses applauded its innovative leadership in the software industry. And we offered the first complete computerized accounting system that was easy-to-use, fast, and powerful, yet affordable to a growing business. More importantly, growing businesses, now more than half a million worldwide, look to DacEasy for providing the most effective solutions for managing their companies better. Today DacEasy proudly offers the most complete line of business solutions for your company's future, beginning with:

The Worldwide Leader of Accounting Solutions

Best-selling DacEasy Accounting is clearly the most award-winning! No

DacEasy Accounting 3.0 Main Menu

other accounting software can boast of winning so many prestigious

DacEasy Accounting™

awards, such as three time winner of PC World's World Class Awards, two-time winner of PC Magazine's Editor's Choice and two InfoWorld awards.

Today your company can benefit from the new generation of DacEasy Accounting, Version 3.0, that's receiving ovations from all around the world for delivering even more power and an unprecedented ease-of-use. Version 3.0 offers a totally redesigned

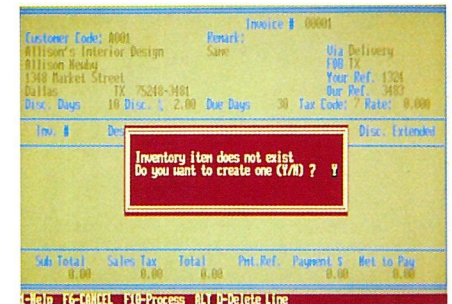

user interface, that incorporates transaction-oriented "pull-down" menus for a more natural flow of your day-to-day work. Plus special user features such as context-sensitive help, extensive use of error messages and informative prompts increase efficiency as well.

Quick Installation

For complete accounting for your service or inventory-based company, use the predefined Chart of Accounts or customize your own. Installation can be completed within 10 minutes by simply answering five quick questions.

Seven Integrated Modules

All seven modules (General Ledger, Accounts Receivable, Accounts Payable, Inventory, Billing, Purchase Order and Forecasting) are perfectly integrated. That means when data is posted to any one of the seven modules, it is automatically posted to all

DacEasy Accounting Invoice

related modules, for a time-saving feature that ensures greater accuracy.

FEATURES

General

- Written in C Language
- Transaction-oriented pull down menus
- Seven integrated modules
- Multi-departmental, point-of-sale
- Batch & on-line processing, 700 reports
- On-line context sensitive help
- Expanded help windows
- New password protection/supports 5 levels/User enters only once
- Fast-start installation
- New 460-page manual with primer
- Interfaces with other DacEasy products

General Ledger

- Modifiable predefined Chart of Accounts and financial statements
- Ability to enter new accounts during General Ledger transaction entry
- 3 year account history
- Unique automatic budgeting
- Financial ratios

- Open invoice or balance forward
- Ability to add new customers, accounts during Accounts Receivable Transaction entry, Receipt routine

- Flexible aging
- Cash flow analysis/ 3 year history
- Flexible invoice allocation
- Automatic finance charges
- Supports partial payment
- Sales analysis and budgeting

Accounts Payable

- Tracks contract labor/1099 (Misc)
- Ability to add new vendors, accounts during Accounts Payable Transaction entry, and Payment routine
- Browse invoice feature
- Check printing-multiple bank accounts

Rolodex Live! by DacEasy offers an easy-to-use solution for busy people who must keep detailed information files about people, places and events. Now there's an effortless way to computerize your Rolodex card files by creating file cards, mailing labels, envelopes and unlimited customized reports from this information. With a touch of a key, locate a record, make changes and print out a new card. RAM-optional, you can "pop-up" information while working in another program!

Fast On Screen, On File Access to Your Information

Whether it's on screen or on file, Rolodex Live! comes with built-in formats, one for individuals and one for organizations. Simply enter the information, or modify the fields to

Rolodex[®] Live!

F E A T U R E S

- Easy installation
- Prints Rolodex file cards, customized labels & envelopes
- On-screen database with modifiable formats-one for organizations/individuals

specific needs. With Rolodex Live!, you're provided with seven fields,

that may be used for sorting. You can locate a record based on one piece of information such as the company's name, address or phone number. The KeyWord feature allows you to enter up to six descriptive words or phrases, with special meaning to you, for instant searching and sorting. Full screen editing allows for easy additions, deletions, or changes. Rolodex Live! can be used as a stand-alone or RAM-resident for instant access to query follow-up dates and generating custom reports. And for those who use Rolodex Live! extensively, the Rolodex Live! Toolkit is a handy utility that allows you to import existing data files from programs such as Sidekick, dBASEIII and dBASEIII+ into Rolodex Live!, maintaining and repairing files and cleaning or recovering deleted records, saving you hours of data entry time.

DacEasy Word is uncomplicated text processing for everyone. For those who need to communicate in writing, DacEasy Word is an incredible word processing program that delivers all the punch of a high-priced program, yet maintains the DacEasy ease of use and installation. People everywhere choose Word because of its quick learning curve and its abundance of features which include windowing, mail merge, word search and full-featured context-sensitive help.

Pull Down Menus, Speed Keys

For the novice, DacEasy Word provides, easy pull-down menus with context-sensitive help. And for the power user, optional speed keys streamline commands. Open up and work on up to four documents at one time with the windowing feature,

DacEasy Word[™]

F E A T U R E S

- Easy installation, context-sensitive help screens
- Windowing (up to four at once)
- Expanded Dictionary for extensive spelling corrector capability

quickly cut and paste text from one window to another and zoom out any window for full screen viewing.

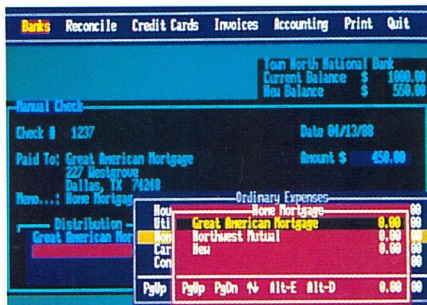

With Version 3.0, sit back and relax as DacEasy Word's built-in correctors streamline your editing process. An expanded Dictionary function provides a more efficient spelling corrector, while a Punctuation Corrector scans your document for errors, such as incomplete sentences. And DacEasy Word uses any of three user defined methods of searching.

Teaming up with Other DacEasy Winners

For DacEasy Accounting and Payroll users (both 2.0 and 3.0), DacEasy Word allows you to mail merge DacEasy Payroll employee lists and DacEasy Accounting's customer and vendor list. Teamed with Rolodex Live! merge customer information with a document to generate addressed letters, print envelopes and mailing labels for the same list with just a few keystrokes. And merge Lucid 2.0 data directly into DacEasy Word without ever re-keying!

DacEasy Light is the perfect home/office accounting solution. For anyone that's looking for a great way to do your personal and business finances without having to be an expert in accounting, DacEasy Light offers great performance, yet maintains affordability for small business owners. With its super easy installation, you can instantly setup using two predefined Chart of Accounts - one for personal and one for business! Start up is simply defining your checking, saving and credit-card accounts. After that, most of your work involves entering checks, bank deposits, and credit-card charges into on-screen forms. Light prompts you for the additional information it needs to account for your income and expense. You can begin to add accounts

DacEasy Light Check

(up to 99 names for each file of creditors, customers, banks, vendors and more) and enter beginning balances in your Chart of Accounts before you even start accounting with Light. DacEasy Light is the right choice, perfect for the home user and sole proprietor.

DacEasy Light™

DacEasy Light for the Home
For your personal use, Light is unbeatable for ease-of-use and performance. Use it as a checkwriter or to budget your cash flow for the year. You'll immediately appreciate the "smooth feel" of Light. After simple installation, Light generates a "home" version of predefined accounts that you can rename if necessary.

Keeps Track of Personal Expenses

Don't worry if you don't know a debit from a credit. With Light, you only see familiar formats such as checks or credit card slips. All you do is enter the information. This means that as you're writing checks for personal use, Light expenses existing categories in the predefined Chart of Accounts. So without even knowing accounting, you're efficiently man-

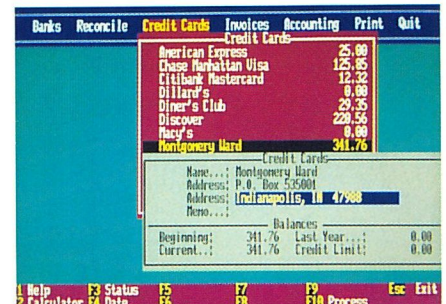

aging a home finances system, while Light works behind the screen!

Up-to-the-Minute Financials

Light goes a step further with the ability to provide you with up-to-the-minute personal financial statements. Thinking about a costly purchase, such as a new car or remodeling the family room? DacEasy Light takes the guess work out of home management decisions by gathering all the information to produce an accurate financial status at any given moment, so that you can make the best decisions about how and when to spend your money.

Reconcile Your Checking Account with Ease

Light has an incredibly easy way to reconcile your bank statements, so you simply view a bank account's register, and mark off cleared or outstanding checks. You can even forecast a 12-month budget and compare forecasts with actual results.

DacEasy Light Credit Card Transaction

DacEasy Light for the Sole Proprietorship

If you're a sole proprietor or if your business doesn't require the extensive capabilities of Accounting 3.0, Light is perfect for your business

FEATURES

For Home and Office

- Easy installation, password protection
- Modifiable predefined Chart of Accounts - one for home and one for office
- Easy printer installation
- Create up to 99 accounts for checking, savings, customers, vendors and others for up to 500 Chart of Accounts

- Full-featured check writer. Enters checks either manually or print by computer
- Prints checks one at a time or batch
- Reconciles bank statements for checking and savings accounts with ability to enter adjustments on-line
- 12-month budget with spreadsheet features for all revenue and expenses

- All printed reports have three options: on-screen, printer, or file
- Easy to understand manual
- Automatic credit balance updates when posting credit card slips
- Pop-up calculator that pastes results back to screen
- User-defined color options

needs. Cleverly designed for the home/office users who have limited time to manage their own books,

DacEasy Light 12-Month Business Budget

Light performs multi-level, double-entry accounting behind the screen, so you can easily track customers, vendors, sales and expenses. Light provides accurate, detailed and summarized financial information about your business at any given moment. Again all of your work is confined to the business of entering checks, bank deposits, and credit-card charges. Light prompts you for the additional information it needs to account for your income and expenses. And when it comes to forecasting a 12-month budget for your business, DacEasy Light already has the information... you add the dollar amount and specific name. It's that simple!

Generate Invoices for Your Sole Proprietorship

With the predefined Business Chart of Accounts, you can automatically enter invoices and print minutes after installation. Light gives you direct access to a general ledger so you can also produce customer statements. If you haven't defined an account for a particular transaction,

Light lets you do it on the fly, a great time-saving feature! Extended prices and sales tax are calculated automatically (and edited, if necessary), forms of payments can be entered (check or credit card), and so much more!

Write Checks for Your Office
Writing checks with Light allows you to track your company expenses. Again Light offers you the option to enter manual checks or use Dac's preprinted checks, along with specially-designed invoices, statements and envelopes to enhance your company's image at very affordable prices. And with DacEasy Light, reconciling business bank statements is fast and efficient.

Printing Business Information is a Snap!

DacEasy Light Invoice

registers, a chart of all your accounts, your balance sheet and income statements, as well as several spreadsheet reports for budget analysis. Light also prints directories of customers and vendors with information such as account number, address, beginning balance, current balance, credit limit and credit available.

As Rick Simi, an engineering manager from Cincinnati, Ohio, who uses Light for his personal and part-time computer consulting business commented, "Light is so intuitive that I barely used the manual. I used to hate writing out manual checks, but Light's ability to print checks has made even bill paying fun."

Convenient Features for Home, Office, or Both

Other convenient features include a pop-up calculator, user-defined colors, and password protection. The easy-to-use manual offers a good introduction to managing your accounts. It gives examples on how to use a file, provides a collection of examples that show you how to get information into and out of DacEasy Light and numerous sample reports produced by the program. Light is truly a remarkable value for home, for office or both!

Art Salsberg, **Modern Electronics**, wrote, "Combined with its truly low cost, high company reputation for support, and convenient complementary checks and forms availability, it's an excellent example of how personal computers can be effectively used. I highly recommend it for use in small full-time or part-time businesses where up-to-the-minute financial information can be important, an external professional look is desirable, and financial forecasting will be helpful."

DacEasy Light is also available for the Macintosh.

Especially for the Sole Proprietorship

- Integrated General Ledger, Accounts Payable & Accounts Receivable System
- End-of-month and End-of-year options available for consolidating transactions
- Full Invoicing and special coded invoice messages

- Calculates extended price on Invoice
- Viewing of customer & vendor files
- Prints sales journal - summary or detail
- Generates mailing labels
- Prints directories of all customers and vendors with account number, address & memo, beginning balance, current balance, credit limit and credit available

- Prints Chart of Accounts, balance sheet, income statement, customer statements and variance reports
- Reports have option to be printed to ASCII files so that other programs can import & utilize
- Availability of DacEasy business forms such as invoices & statements

Lucid 3-D®. The future of spreadsheets has arrived! Lucid 3-D by DacEasy is the spreadsheet with advanced technology that combines technical excellence and intuitive design. Lucid 3-D captured the industry's attention and acclaim with its simplicity and over 100 truly remarkable features which include the revolutionary three dimensional capabilities. Lucid 3-D's impressive ability to link multiple spreadsheets means that any cell of your spreadsheet can contain a complete other spreadsheet that can be instantly accessed with a single keystroke. What better way to design a budget and see multi-levels of detail instantly! *PC Magazine* wrote, "Lucid is a spreadsheet for our times. It's a technical tour de force in an era that seems to have forgotten how to write tight code." It's no wonder that the Lucid 3-D has won *PC Magazine's* Technical Excellence Citation (1987), *Home Office Computing Editors' Pick* (1988) and *InfoWorld's* Excellent Value Award (1989).

Being a Spreadsheet User Can Be So DacEasy

Lucid's highly acclaimed visual menu follows a simple design concept-it's easier to recognize than it is to remember. For the novice spreadsheet user, Lucid 3-D provides the most comprehensive on-line, context-sensitive help screens. No matter where

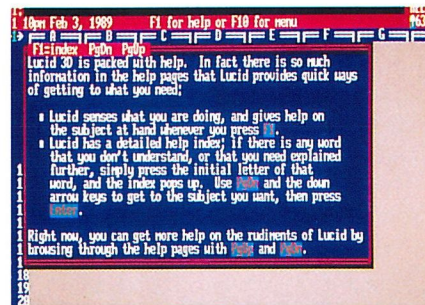

Lucid 3-D®

Home Office
COMPUTING
★ EDITORS' PICK ★

you are on a menu or what you're doing, you'll get a help screen specific to that command or action with the touch of a key! Or if you need

Lucid 3-D Help Screen

more information on a subject, simply pop up the comprehensive on-line help index which contains over 700 topics.

Fun to Use with Total Mouseability

Both new and experienced spreadsheet users have embraced the overall look and feel of Lucid 3-D. And navigating through your program has never been more fun than with total mouse compatibility. Or if you prefer, use the keyboard to operate with complete ease. Unsurpassed in performance, speed and documentation, *InfoWorld* wrote, "Lucid 3-D is quite a bargain for a product of this caliber and therefore, an excellent value."

Functional Cellular Notepad Feature

Another amazing 3-D feature is that any cell can also contain up to an eight page document that is instantly accessed with a single keystroke. Write memos, notes or letters that relate to your work. Save them as individual files or even print them separately or with your spreadsheet. You can have hundreds of disk files attached to cells within spreadsheets and on multiple 3-D levels. And the only RAM used is for the note you are actually viewing at that time!

Reads and Writes Files from Other Programs

Lucid 2.0 adds over 38 new features that will convert the most skeptical power user of any other spreadsheet. Lucid has an invisible module that can be loaded anytime at the DOS prompt. When you do this, you can read and write 1-2-3.WKs and .WK1 files directly. A different module will

FEATURES

3-D

- Unlimited spreadsheet size as big as RAM (up to 8 megabytes)
- Instant 3-D linking of any cell range
- One key view, one key return

Windows

- Up to 9 resizable, moveable windows
- Open windows in different directories, different drives & even into 3-D levels
- Resize, move around and zoom

Complete Mouse Capability

- Icons for resize, move, calculator, zoom
- Mouse press defines range, release shows menu
- Any command can be moused
- Mouse click accepts

Easy-to-Use Macros

- Learning and scripted
- Program extensions appear on menu
- Ability to assign new function to any key

Macintosh-Like Clipboard

- Paste formulas or top text only
- Load any text file into clipboard

Cellular Notepad

- Up to 8 pages of documentation
- Attach text file to any cell

Other Great Features

- Any range, any color
- 8 customizable date formats
- Pop-up text glossary window

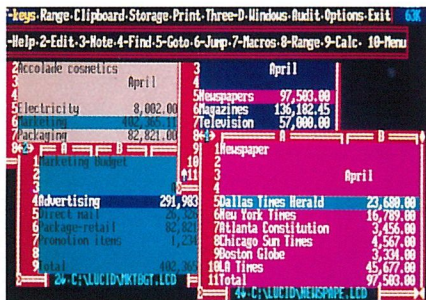

do the same for dBASE files. And yet another module allows you to read DacEasy Accounting (Version 2.0 or 3.0) general ledger, chart of accounts, customers, vendor or product files. This means that you can transport your Accounting information instantly into your spreadsheet without ever re-keying!

Super Fast Calculations that are Revolutionary

Lucid's innovative approach of performing super fast calculations is truly revolutionary. The Minimal Recalc function allows Version 2.0 to only recalculate specific cells affected by the changes made. Another achievement is called Background Recalc which gives you control of the cursor the moment calculations which affect your viewing screen are completed. Lucid even allows multi-megabyte 3-D models to recalculate very rapidly with these incredible Recalc features.

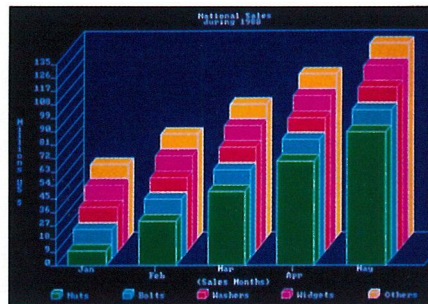

One-of-a-Kind Spreadsheet

You can open up unlimited windows, displaying up to nine overlapping

Lucid 3-D Multiple Windowing

spreadsheets at once, or more than one window can contain different views of the same spreadsheet. You can simultaneously open windows in different directories, different drives and even down into as many 3-D levels as you like. Even resize, move around, and zoom instantly. Pop up Lucid while working in any other application, and utilize its ability to cut anything on the screen from your foreground application and paste any range in Lucid, or vice versa. You can

Lucid 2.0's 3-D Graphics

even run Lucid right on top of 1-2-3! And unlike other spreadsheets, if you want to transpose columns and rows, it's no problem because Lucid includes the formulas and adjusts the references accordingly.

Truly Spectacular 3-D Graphics

You are not limited to small files. Now you can have spreadsheets as large as eight megabytes. And you'll love Lucid 2.0's spectacular 3-D color graphics which include pie, bar, and perspective bar, accessed instantly by painting any range of cells and clicking a single key. And working

with these colorful graphics makes Lucid a delight to use!

The Lucid Language

And with special keystrokes, the Lucid Language gives you the power to create custom instructions that can be written in any text editor or even the Lucid notepad. You can even create whole new applications with pull-down menus and pop-up data entry screens.

"Lucid 3-D is a package that could alter the face of future spreadsheets. It offers residence, multiple windows, colour, mouse support and rapid execution." PC User (Britain's largest computer magazine)

Even the minor features make working with Lucid more enjoyable and so convenient, such as automatic file save, pop-up calculator, the capability to change the activation key, complete control over colors (even blink for negative numbers!) and a favorite labels list containing fre-

Create Applications with Lucid Language

quently used labels such as months, common words such as profit or revenue. Join the new generation of spreadsheet users with Lucid 3-D!

- Transpose columns and rows
- Adjustable range widths
- Reads & writes files from other programs
- On-line, extensive context-sensitive help
- Over 700 items in on-line help index
- Three dimensional graphics
- Macros for both keyboard and mouse
- Ranges and range names (up to 70 characters in length)
- Pop-up calculator

- Automatic save and recover
- Built-in analysis toolkit for spreadsheet creation (auditing capability)
- Supports CGA, EGA and VGA monitors
- Find and replace function
- Lucid Language
- Nestable user defined functions (up to 9 parameters for each function)
- Unique XY table lookup function
- Date and time show on screen

- Hierarchical access to related spreadsheets
- Cell protection
- Instant key commands (35)
- Date and time shown on screen
- Built in file manager
- Borders screen display on/off
- Editable file name - no retyping if unfound
- And so much more!

Lucid 3-D is another fine product developed by the innovative people at PCSG.

A

ccelerate Your Business Operations Without the Expense. Investing

in a more powerful computer for your growing business can be a serious matter, but DacEasy proudly offers a money-saving solution that provides more speed and reliability at a familiar DacEasy price! Breakthru 286 is the most advanced, most reliable speedup board that allows you to convert most clones and even Compaq portables to an AT without the expense! The original board can accelerate up to 8MHz. Ted Mirecki, *PC Tech Journal* (Rated #1), wrote, "The Breakthru 286 achieved the best performance results of the caching boards tested." Now there's even more speed with Breakthru 286-12MHz, which has the clock speed cranked up from 8 to 12MHz for speeds up to 10.2 times

"The Breakthru 286 performed flawlessly with every application we handed it, including copy-protected programs and nine memory-resident utilities at once."
Stephen Manes,
PC Magazine

faster than an IBM PC. Mark Welch, *InfoWorld* (Rated #1) wrote, "The 12-MHz Breakthru 286-12 speedup board is the fastest of those tested, but not the most expensive.

On a dollar per-horsepower basis, it could be called the cheapest boost available for an XT." In fact, Breakthru 286-12 runs 50% faster than regular Breakthru and an amazing 1,000% faster than a regular PC!

Installation is as Easy as 1-2-3!

Experience the difference in just 5 minutes. Easily install the half-slot card with simple diagrams that show how you place the half-slot card in an open slot, remove the original processor and connect a single cable. It's only 5 inches in length, so you don't

**DacEasy™
Breakthru 286™**

F E A T U R E S

- Easy 1-2-3 Installation of Half Card/No Software Required
- Available in two clock speeds, 8 MHz and 12 MHz
- Works on most clones and Compaq portables
- Universal software compatibility for existing system RAM, hardware and peripheral cards
- Works with LAN and mainframe communication products
- Optional 80287 math coprocessor chip for numeric intensive applications
- Remarkable speed switching capability

even have to give up a full slot. There's no software required and from that moment, you're running faster than an AT.

Software Compatibility That's Universal

Breakthru's advanced technology replaces the CPU of your PC or XT with an 80286 microprocessor that's even faster than the one found in the AT. You can plug in an optional 80287 coprocessor chip for numeric intensive applications. A 16K cache memory provides zero-wait-access to the most recently used code and data. All existing system RAM, hardware and peripheral cards can be used without software modification. Our

boards operate with LAN and mainframe communication products and conform to the Lotus/Intel/Microsoft Expanded Memory Specification (EMS). And unlike other boards, the Breakthru has remarkable speed switching software that allows you to drop back to a lower speed on the fly for timing sensitive applications. Dan A. Griffin, Newsletter of the AutoCAD User's Group, wrote, "Breakthru 286 is a good value and a quality product backed by effective support."

DacEasy Lightning™ Cuts Disk Access in Half

And to complement Breakthru's capabilities is the disk speedup software, Lightning by DacEasy, which was named *PC Magazine's* Best of 1986. Lightning does what a speedup board can't do ...reduce access time in half. After easy installation, Lightning loads with DOS, so that it's always ready to work as a background program. This means programs that frequently access the disk (hard disk or floppy) such as databases or word processors can be increased up to 2-4 times faster. Lightning enables any program to approach the same rapidity as a RAM disk, but without the RAM disk danger of losing data if you forget to save it. It works by a principle borrowed (and greatly enhanced) from mainframe technology called caching. And with Lightning by DacEasy, all programs are completely reliable and compatible! "Lightning is almost mandatory," wrote Steve Manes, *PC Magazine*, Best of 1986 Review. If ordered separately, Lightning normally retails at \$69.95, but with your purchase of Breakthru 286, Lightning is included absolutely **Free**.

Breakthru 286 and Lightning are two other fine products designed by the innovative people at PCSG.

Flexibility for Forecasting

More than 700 reports are available

DacEasy Accounting Customer Screen

to help you better manage your business. DacEasy even handles immediate, corresponding invoicing plus data capture for point-of sale, and multi-departmental information as well, plus forecasting "what if" scenarios, and invaluable three-year historical information for projecting expenditures and revenues! Norm Tyche, Vice President of Market Refrigeration in El Cajon, California, wrote, "I have been working with DacEasy Accounting for over nine months. I am very satisfied with the new upgrade version 3.0. The new features make a great product even better. The flexibility and ease of use make your product one that I will recommend to anyone in the market for computerized accounting."

Also available is DacEasy Accounting for the Apple.

DacEasy Accounting Tutorials

DacEasy provides two fun and efficient tools for quickly teaching you about DacEasy Accounting 3.0. With DacEasy Accounting Tutor just load the diskette and you'll be led step-by-step through installation, complete setup and benefits of computerizing your business. The handy primer serves as an enjoyable guide to the inner workings of Version 3.0 with colorful graphics, charts, practical examples and illustrations of the best uses of the hundreds of management reports. For those who want the convenience of viewing DacEasy Accounting on a TV screen, you can sit back and relax at home or office with the Video Tutor. The Video Tutor will show you how Accounting Version 3.0 can save time and increase accuracy. For the accounting novice, this video tape will take the mystery out of accounting. Experienced DacEasy users will appreciate the benefits of Version 3.0 brought to life on the television screen.

DacEasy Accounting Tutor

DacEasy Accounting Video Tutor

A Three In One Utility That'll Save You Hours

While DacEasy Accounting 3.0 is powerful as a stand-alone program, we've carefully designed other business solutions that work in perfect harmony with Accounting. Now there's DacEasy Graph+Mate, a three-in-one utility program, that's co-resident for efficient file viewing, graphing and generating custom reports. Faster than DOS, you'll love the speedy way DacEasy Graph+Mate easily backs up, one or more and restores files without leaving your Accounting program. Graph+Mate includes a powerful file viewing utility that allows key field selections with the ability to sort on different fields. The report generator program allows custom report creations, using fields from any Accounting or Payroll files and intermixing them. And an impressive array of easy graphics include Pie Charts, Line Charts, Bar Charts, Stacked-Bar Charts and three-dimensional Perspective Bar Charts for a vivid picture of your company's progress. Use a handy pop-up calculator for quick calculations, then paste the results directly into DacEasy Accounting or Payroll.

DacEasy Graph+Mate

- Vendor directories and labels
- Flexible aging/Purchase forecasting
- Automatic reprinting of checks
- Unlimited allocation per invoice

Billing

- Invoicing on plain or pre-printed forms
- Option to add flat amount billing to the service billing codes
- Ability to add new customers, products, services, tax rates and service codes during invoicing
- Multiple tax rates per customer (up to 10)
- Sales journals/invoice remarks

- Credit memos
- Revenue & cost allocation
- Point-of-sale invoicing
- Packing lists

Inventory

- Supports 3 most popular costing methods
- Physical inventory routing with count sheets
- Three-year history for all products
- Special services file
- Alert and activity reports
- Automatically updates quantity on-hand

- On-line posting

Purchase Order

- Per line in dollar or percent
- Multiple tax rates per customer (up to 10)
- Ability to add vendors, tax rates, accounts, products, services and service codes during Purchase Entry routine
- Purchase journal/99 items per PO
- On-line processing

Forecasting

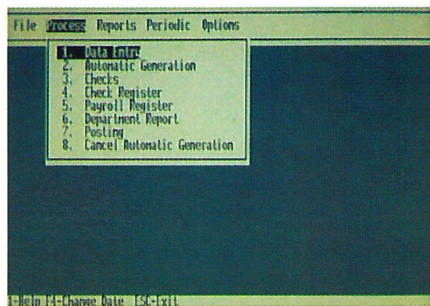

- Unique forecasting module that forecasts budgets for all principal files using 3 different calculation methods

DacEasy Payroll is the world's best-selling payroll and personnel management system. This power-packed program works as a stand-alone or integrates perfectly with DacEasy Accounting. DacEasy Payroll's simplistic design makes it perfect for virtually anyone in your company to master all its powerful capabilities in a matter of hours.

Version 3.0 is Even Easier than Ever!

Version 3.0 has added even more power, more features and a new user interface that makes DacEasy Payroll even easier than before! A time-saver, DacEasy Payroll has pull down menus, context-sensitive help and handy prompts. Plus automatic calculations for federal and state tax withholdings for your convenience.

DacEasy Payroll 3.0 Main Menu

Unmatched in Flexibility and High Performance

Choose from one or all of DacEasy Payroll's pay periods (Weekly, Bi-Weekly, Semi-Monthly and Monthly) for an unlimited number of hourly and salaried employees. Manage tips, piece-rate and after-the-fact payroll while calculating withholdings for tips deemed as wages, and automatic payroll generation by exception only.

Prints W-2's, 1099-Misc Forms as Well

DacEasy Payroll's reporting capability can produce numerous reports as well as an employee directory and

DacEasy Payroll™

employee mailing labels. DacEasy Payroll expedites check reconciliation, plus the printing of continuous payroll checks and payroll registers. Version 3.0 conveniently prints continuous W-2's, 1099-MISC forms for Contract Labor, and the option to send W-2's to the government. The

new employee file design fits on three screens for improved readability.

Protect Your Most Valuable Asset – Your Employees

For simple personnel management, Payroll stores important employee data such as hire dates, raises, reviews, terminations, vacation and sick time, and generates reports of upcoming events and assures the protection of your most valuable asset - your employees.

Penny Magnuson, Accounting Manager, Hall's Insurance, wrote to her user group: "DacEasy Payroll handles just about every payroll situation you can envision and it is definitely user-friendly. I agree with the Software Review Committee that it's not feasible to spend time and money developing an integrated payroll system, especially when excellent third-party software is already available and useful."

The On Screen Solution for Learning DacEasy Payroll 3.0

DacEasy Payroll Tutor is the fastest
