HP Microcomputer Club's System Demonstration

There will be a meeting on September 7 at noon in conference room 5M1 (Bldg 5) for builders of the club's microcomputer project. A working system consisting of:

    HPMCIG Motherboard/Cabinet   Fulcrum 64K RAM
        "   CPU and Front Panel   Disk Controller and Drives
    SSM I/O Board   Godbout Terminator Board
    2640 CRT Terminal

Come see the CPM operating system brought up on the club's boards and ask the hardware committee questions about the system configuration and future plans.

Errata

The previous newsletter claimed to have data sheets attached for various boards that the hardware committee was considering for group purchases. The data sheets in fact were not sent. This documentation will be available at the meeting next Tuesday.

Board Order Forms

As mentioned in the previous newsletter, the club will be making group purchases of boards and dress panels for the cabinets from the middle September to the middle of October. The schedule of purchases is as follows:

    9/17 SSM IO4 Board and Dress Panel
    10/1 CCS Disk Controller
    10/15 64K RAM and Terminator Boards

There are three pricing options for the boards (some of the boards can only be purchased in one 'option'): bare board, partial kit or full kit. A full kit consists of all parts available and the bare board. A partial kit consists of the board and a few key IC's which maybe expensive or hard to obtain. With the bare option all you get is the board blank. None of the parts options implies the boards are loaded! You must come help out at loading party in order to receive a loaded board. Complete prices are as follows:

```
                                         Parts Options
Board                             Board Only   Partial    Board & All Parts
SSM IO4                              $40                      $100
CCS Disk Controller                 $50                      $225
Memory Merchant 64K RAM                        $200*         $400*
Terminator                                                   $65
Cabinet Dress Panel                                          $30
```

* The prices for the RAM board are not finalized yet. More details at
   the meeting

            (Xerox this form and use it for the three purchases)
            Send to Barry Lewis, Bldg 90 before the deadline date.

Name_____   Bldg/Addr_____

I would like to purchase:
 Qty Date   Board   Loading Option   Price
____   9/17 - SSM IO4   _____   _____
____   Dress Panel   _____

____   10/1 - CCS Disk Controller _____   _____

____   10/17 - RAM Board   _____   _____
____   Terminator Board   _____

                                        Total _____
