Price Break on Disk Controller and Memory Boards

There maybe three main options in buying the boards as before.
The improved prices are a result of the club's mass purchase discount.

> bare board - that's all you get

> board + minimal ICs - the board and the minimum number of ICs required
                        to make to board functional

> board + maximum ICs - fully loaded board

Board	Bare Price	Minimal Price	Maximum Price
CCS Disk Controller	$45		$180
Memory Merchant	$110	*	$275
SSM IO4	$40		$125-150
Terminator Board			$60
Front Dress Panel			$30

                                        Approximate Total $545

* Partial Pricing of Memory Merchant 64K RAM Board - the price for the
  RAM is $4.50 an IC (each IC is 2K x 8 bits). If you do not want a
  fully populated board, mark on the order form exactly how much memory
  you desire and deduct the price of the missing ICs. For example, a
  32K board would be $275 - 16 x 4.50 = $203. A 48K board would be $239.
  Feel free to purchase extra spare RAMs if you so desire.

The three order deadlines have been moved forward one week. The new
dates are as follows:

    9/24/82 SSM IO4 Board + Front Panel
    10/8/82 CCS Disk Controller
    10/22/82 RAM + Terminator Boards

The club will be acting as a broker to connect system buyer's and
sellers. Should you wish to buy or sell a system, please contact Barry
Lewis, Bldg. 90 by mail only.

HP Microcomputer Interest Group

Moderator   Rick Pinger, 30, 969-0880
Treasurer   Barry Lewis, 90, x2601
Hardware Committee Chairperson   Steve Hessel, 29A, x5514
