***** DISCUSSION *****

The upgrade from TRSDOS 6 to LS-DOS 6.3 is available direct from Logical Systems, Inc., at a cost of \$39.95 (U.S.). This price is guaranteed until September 30, 1987, at which time LSI reserves the right to change the pricing. This is a required upgrade. While you may continue to use any prior version of TRSDOS, please be aware that LS-DOS 6.3 is the only Model 4 (in Model 4 mode) operating system for which we will be developing any software fixes and/or enhancements. End user support for LS-DOS 6.3 is available from Radio Shack or from Logical Systems, Inc.
