CUSTOMER SERVICE BULLETIN

Problem

Sell Transactions may not exactly match the original purchase if fractional units are involved. This results in the lot being left on file (i e units left after sell are not exactly equal to zero).

Solution

The problem is corrected by following the steps listed below.

1. In BASIC load the program by typing CLOAD "TTRAN".
2. Make the following corrections:

CHANGES (Retype the line or refer to the Edit section of the owners manual)

Old Line: 126 ...IFS(J,Ø)=ØTHENGOSUB132

New Line: 126 ...IFS(J,Ø)<.ØØ5THENGOSUB132

Old Line: 123 ...IFD!>S(J,Ø)THEN116

New Line: 123 ...IFD!>S(J,Ø)+.ØØ5THEN116

3. Type CSAVE "TTRAN" to save the changes in the program.
5. At TRSDOS Ready, make a backup copy of the corrected tape.
