6. When the Mailing List menu appears, press the BREAK key.
7. When the screen shows "READY", type: GOTO 50000 and press ENTER.
8. The system will examine your data files and retrieve, re-sort and index all the valid data found. When this process is complete, the Mailing List Menu will appear. Press the @ key to exit the program immediately.
9. Make BACKUP copies of your "recovered" disks. Examine the data carefully before copying over your original disks. If the data is not correct, try the operation again.
