Our records indicate that you are the registered owner of PROFILE 4 PLUS for the Model 4. Please be sure that the version number referenced matches your software. Currently, extended report formats are not found if they do not reside on the same drive as the "MAP" file. To correct this, you should make the modifications to your software detailed in the PROCEDURE section (below) as soon as possible.

* * THESE PATCHES ARE REQUIRED * *

***** DISCUSSION *****

The modifications required will be accomplished by the series of PATCHES listed in the PROCEDURE section. If you are unfamiliar with "PATCHING" your software, please refer to your computer OWNER'S MANUAL for help.

After making these PATCHES, your software will be upgraded to VERSION 01.00.08. Be sure to mark this version in your SOFTWARE VERSION LOG.

You may continue to use any previous version of PROFILE 4 PLUS; however, please be aware that until further notice, Version 01.00.08 of this software is the only one for which we will be developing any software corrections.

Please check the front and back of all of your software manuals and be sure that all SOFTWARE REGISTRATION CARDS have been mailed to us. This will ensure that you receive notifications about required changes to other packages you own.
