Overview

Sun Product Family

This price list is organized by family and packaging type. There are three Sun product lines, the Sun-3™, Sun-4™ and the Sun386i™ families. Within each family the price list is sectioned by packaging type: Desktop Workstations, Deskside Workstations and Servers, and Data Center Servers.

Sun-3 Family

The Sun-3 family of workstations and servers includes four distinct levels of performance and four packaging types. The four performance levels are represented by the 1.5-MIPS Sun-3/50, the 2-MIPS Sun-3/100 Series, the 3-MIPS Sun-3/60 Series, and the 4-MIPS Sun-3/200 Series.

The Sun-3/50 Series features:

- Full 32-bit architecture, 15-MHz MC68020 CPU
- 16.67-MHz MC68881 floating-point coprocessor (optional)
- 4-Mbyte main memory
- High-resolution display
 - 19-inch landscape monitor
 - 1152 (h) x 900 (v) pixel resolution
 - 66 Hz, noninterlaced refresh
- Built-in thin Ethernet transceiver
- Desktop packaging
- The Sun-3/50M and related packaged systems

The Sun-3/60 Series features:

- Full 32-bit architecture, 20-MHz MC68020 CPU
- 20-MHz MC68881 floating-point coprocessor
- 4-Mbytes main memory
- High-resolution display (optional for Sun-3/60S)
 - 19-inch landscape monitor (16-inch color monitor available on the Sun-3/60FC)
 - 1600 (h) x 1280 (v) pixel resolution for high-resolution monochrome monitors
 - 1152 (h) x 900 (v) pixel resolution for monochrome, color, and grayscale monitors
 - 66 Hz, noninterlaced refresh
- Built-in thin Ethernet transceiver
- Desktop packaging
- The Sun-3/60M, Sun-3/60HM, Sun-3/60C, Sun-3/60FC, Sun-3/60G, Sun-3/60S, and related packaged systems

The Sun-3/100 Series features:

- Full 32-bit architecture, 16.67-MHz MC68020 CPU
- 16.67-MHz MC68881 floating-point coprocessor
- 4-Mbytes main memory (16 Mbytes maximum)
 - 12-Mbytes maximum on Sun-3/140
- High-resolution display (optional for Sun-3/140S, Sun-3/150S, Sun-3/160S, and Sun-3/180S)
 - 19-inch landscape monitor
 - 1152 (h) x 900 (v) pixel resolution
 - 66 Hz, noninterlaced refresh
- Desktop, deskside, or data center cabinet packaging
- The Sun-3/140M, Sun-3/150M, Sun-3/150C, Sun-3/150G, Sun-3/160M, Sun-3/160C, Sun-3/160CXP, Sun-3/160G workstations and the Sun-3/140S, Sun-3/150S, Sun-3/160S, and the Sun-3/180S servers and related packaged systems

The Sun-3/200 Series features:

- Full 32-bit architecture, 25-MHz MC68020 CPU
- 20-MHz MC68881 floating-point coprocessor
- 64-Kbyte virtual address, write-back cache
- 8-Mbyte ECC main memory (32 Mbytes maximum)
- High-resolution display (optional for Sun-3/260S and Sun-3/280S)
 - 19-inch landscape monitor
 - 1600 (h) x 1280 (v) pixel resolution for monochrome monitors
 - 1152 (h) x 900 (v) pixel resolution for color and grayscale monitors
 - 66 Hz, noninterlaced refresh
- Deskside or data center cabinet packaging
- The Sun-3/260HM, Sun-3/260C, Sun-3/260CXP, Sun-3/260G workstations, and the Sun-3/260S and Sun-3/280S servers and related packaged systems

Sun-4 Family

The Sun-4 family of supercomputing workstations and servers includes two distinct levels of performance and three packaging types. The two performance levels are represented by the 7-MIPS Sun-4/100 desktop supercomputing workstations and the 10-MIPS Sun-4/260 series supercomputing workstations, and the Sun-4/280 data center servers.

The Sun-4/100 Series features:

- Full 32-bit SPARC™ architecture, 14.28-MHz MB86900 CPU
- Weitek 1164/1165 floating-point unit (optional on Sun-4/110, standard on Sun-4/150CXP)
- 8-Mbyte parity main memory (32 Mbytes maximum)
- High-resolution display (optional for Sun-4/110S)
 - 1600 (h) x 1280 (v) pixel resolution for high-resolution monochrome monitors
 - 1152 (h) x 900 (v) pixel resolution for monochrome, color, and grayscale monitors
 - 19-inch landscape monitor (16-inch color monitor available on the Sun-4/110FC)
 - 66 Hz, noninterlaced refresh
- Desktop or deskside packaging
- The Sun-4/110M, Sun-4/110FC, Sun-4/110C, Sun-4/110TFC, Sun-4/110TC workstations, the Sun-4/110S server and related packaged systems, and the Sun-4/150CXP, and Sun-4/150TAAC workstation

The Sun-4/200 Series features:

- Full 32-bit SPARC architecture, 16.67-MHz MB86900 CPU
- Weitek 1164/1165 floating-point unit
- 128-KByte virtual address, write-back data and instruction cache
- 8- or 32-Mbyte ECC main memory (128 Mbytes maximum)
- High-resolution display (optional for Sun-4/260S and Sun-4/280S)
 - 19-inch landscape monitor
 - 1600 (h) x 1280 (v) pixel resolution for high-resolution monochrome monitors
 - 1152 (h) x 900 (v) pixel resolution for color and grayscale monitors
 - 66 Hz, noninterlaced refresh
- Deskside or data center cabinet packaging
- The Sun-4/260HM, Sun-4/260C, Sun-4/260CXP, Sun-4/260G workstations, and the Sun-4/260S and Sun-4/280S servers and related packaged systems

Overview

Sun CXP Graphics Workstations

The Sun CXP models feature:

- Graphic acceleration hardware (GP+ or GP2)
- 19-inch landscape color monitor with 1152 (h) x 900 (v) pixel resolution
- 256 colors displayed from of a palette of over 16.7 million
- Double-buffering standard on Sun-3/260CXP, Sun-4/150CXP and Sun-4/260CXP (optional on Sun-3/160CXP)
- 16-bit Z-buffer standard on Sun-3/260CXP, Sun-4/150CXP and Sun-4/260CXP (optional on Sun-3/160CXP)
- Software compatibility (SunCGI™, SunCore®, SunGKS™ or G.P.C.I.)

TAAC-1 Application Accelerator

- The TAAC-1™ Application Accelerator is a 2-board set C-programmable processor for Sun-3 and Sun-4 configurations. You can store and manipulate data within an 8-Mbyte on-board memory, which can also be treated as a 24-bit frame buffer with an 8-bit alpha channel (1024 x 2048 total size). This may be viewed within the Sun window system or displayed on an external monitor.

All Sun-3 and Sun-4 workstations and servers standard features:

- Low-profile keyboard and mouse pointing device (optional for all servers)
- Ethernet 10-Mbits/sec local area network interface
- Two RS-423 serial ports with modem control
- 8-bit color on all color systems
- Right-to-use licenses for SunOS™, ONC™ (including NFS™), SunPro™, SunView™, C, SunCore, and SunCGI are available as a no-charge product for all single-user Sun-3 workstations
- Right to use licenses for SunOS, ONC (including NFS), SunPro, SunView, C, SunCore, and SunCGI are available as a no-charge product for all single-user Sun-4 workstations

Sun386i Family

The Sun386i family of workstations includes two basic deskside packaging models: the 3-MIPS Sun386i/150 and the 5-MIPS Sun386i/250. You can optionally configure the Sun386i/150 with the Sun386i/250's XP Cache memory board for a 4-MIPS system, the Sun386i/150X. You can also configure both models with the optional EXP peripheral expansion box.

The Sun386i/150 features:

- Full 32-bit architecture, 20-MHz Intel 80386 CPU
- 20-MHz Intel 80387 floating-point coprocessor
- Dynamic memory card with 4-Mbyte main memory standard (exceeds 3 MIPS)
- XP cache memory card with 4-Mbyte main memory optional (exceeds 4 MIPS)
- Choice of high-resolution display:
 - 15-inch 1024 (h) x 768 (v) monochrome
 - 19-inch 1152 (h) x 900 (v) monochrome
 - 14-inch 1024 (h) x 768 (v) color
 - 16-inch 1152 (h) x 900 (v) color
 - 19-inch 1152 (h) x 900 (v) color
 - 66 Hz, noninterlaced refresh
- Deskside packaging (desktop placement with optional kit)
- The Sun386i/150SM, Sun386i/150M, Sun386i/150SC, Sun386i/150FC, and Sun386i/150C

The Sun386i/250:

- Full 32-bit architecture, 25 MHz Intel 80386 CPU
- 25-MHz Intel 80387 floating-point coprocessor standard
- XP cache memory card with 4-Mbyte main memory standard (exceeds 5 MIPS)
- Choice of high resolution display:
 - 19-inch 1152 (h) x 900 (v) monochrome
 - 16-inch 1152 (h) x 900 (v) color
 - 19-inch 1152 (h) x 900 (v) color
 - 66 Hz, non-interlaced refresh
- Deskside packaging (desktop placement with optional kit)
- The Sun386i/250M, Sun386i/250FC, and Sun386i/250C

Monitor options

(Not all monitors available for all series)

- SM = 15" monochrome (1024 x 768)
- M = 19" monochrome (1152 x 900)
- MQ = 19" monochrome with OCLI filter (1152 x 900)
- HM = 19" high-resolution monochrome (1600 x 1280, OCLI filter not available)
- SC = 14" color (1024 x 768)
- FC = 16" color (1152 x 900, AR coating standard)
- LC = 15" color (1152 x 900, AR coating standard)
- C = 19" color (1152 x 900, AR coating standard)
- G = 19" grayscale (1152 x 900, OCLI filter not available)
- S = server (no monitor, keyboard, or mouse)

- NOTES:**
1. Please read and thoroughly understand the Sun Configuration Guide before ordering these products.
 2. Some products and options in this price list have longer than normal delivery lead time. Please contact a Sun sales office for current availability.
 3. Software licenses, tapes, and manuals must be ordered separately, unless otherwise noted. All software products run on current release of SunOS unless otherwise noted.
 4. Ethernet transceiver and branch cable must be ordered separately (Sun-3/150 and Sun-3/160 include integral thin Ethernet transceiver).
 5. Sun-3 and Sun-4 systems are configured for 115 VAC, 60-Hz line power. "V4" must be appended to the order number for 240 VAC European operation. "V3" must be appended to the order number for 230 VAC Domestic operation. 230 VAC is available only on data center server products. Options being ordered separately from a system (e.g., an expansion disk) must also have "V4" or "V3" appended in order to operate with 240 VAC workstations and servers, or 230 VAC servers.
 6. "Order Number" designates a Sun standard product line item.
 7. "Description" provides general information about the item. For more information, contact a Sun sales office.
 8. Software products are available only under applicable license agreements.
 9. All orders subject to the review and acceptance procedures of Sun Microsystems, Inc.
 10. Sun Microsystems, Inc., is licensed to distribute software based upon the UNIX® operating system.
 11. Prices may change without notice.
 12. See individual product data sheets for complete descriptions.

Sun-3 Desktop Workstations and Servers

Sun-3/50 Desktop Monochrome Workstation

System / Package	3/50M	3/50MQ (Includes OCLI filter)	3/50ME (Includes MC68881 FPC)	3/50MQE (Includes MC68881 FPC and OCLI filter)
Diskless with 4 Mbytes	3/50M-4 \$5,495 / A	3/50MQ-4 \$6,495 / A	3/50ME-4 \$5,895 / A	3/50MQE-4 \$6,895 / A
3/50xx-x-P1 Includes the following: ▪ Sun-3/50M workstation ▪ 511A (71-Mbyte disk with 60-Mbyte 1/4-inch tape drive)	3/50M-4-P1 \$10,495 / A	3/50MQ-4-P1 \$11,495 / A	3/50ME-4-P1 \$10,895 / A	3/50MQE-4-P1 \$11,895 / A
3/50xx-x-P5 Includes the following: ▪ Sun-3/50M workstation ▪ 514A (141-Mbyte disk with 60-Mbyte 1/4-inch tape drive)	3/50M-4-P5 \$11,995 / A	3/50MQ-4-P5 \$12,995 / A	3/50ME-4-P5 \$12,395 / A	3/50MQE-4-P5 \$13,395 / A
3/50xx-x-P9 Includes the following: ▪ Sun-3/50M workstation ▪ 501A (71-Mbyte disk)	3/50M-4-P9 \$8,495 / A	3/50MQ-4-P9 \$9,495 / A	3/50ME-4-P9 \$8,895 / A	3/50MQE-4-P9 \$9,895 / A
3/50xx-x-P10 Includes the following: ▪ Sun-3/50M workstation ▪ 504A (141-Mbyte disk)	3/50M-4-P10 \$9,995 / A	3/50MQ-4-P10 \$10,995 / A	3/50ME-4-P10 \$10,395 / A	3/50MQE-4-P10 \$11,395 / A
3/50xx-x-P14 Includes the following: ▪ Sun-3/50M workstation ▪ 516A (327-Mbyte disk with 60-Mbyte 1/4-inch tape drive)	3/50M-4-P14 \$14,895 / A	3/50MQ-4-P14 \$15,895 / A	3/50ME-4-P14 \$15,295 / A	3/50MQE-4-P14 \$16,295 / A

Sun-3/60 Monochrome Workstations and Servers

System / Package	3/60S	3/60M	3/60MQ (Includes OCLI filter)	3/60HM
Diskless with 4 Mbytes	3/60S-4 \$7,450 / A	3/60M-4 \$9,450 / A	3/60MQ-4 \$10,450 / A	3/60HM-4 \$10,450 / A
3/60xx-4-P1 Includes the following: ▪ Sun-3/60xx workstation ▪ 511A (71-Mbyte disk with 60-Mbyte 1/4-inch tape drive)	3/60S-4-P1 \$12,450 / A	3/60M-4-P1 \$14,450 / A	3/60MQ-4-P1 \$15,450 / A	3/60HM-4-P1 \$15,450 / A
3/60xx-4-P5 Includes the following: ▪ Sun-3/60xx workstation ▪ 514A (141-Mbyte disk with 60-Mbyte 1/4-inch tape drive)	3/60S-4-P5 \$13,950 / A	3/60M-4-P5 \$15,950 / A	3/60MQ-4-P5 \$16,950 / A	3/60HM-4-P5 \$16,950 / A
3/60xx-4-P9 Includes the following: ▪ Sun-3/60xx workstation ▪ 501A (71-Mbyte disk)	3/60S-4-P9 \$10,450 / A	3/60M-4-P9 \$12,450 / A	3/60MQ-4-P9 \$13,450 / A	3/60HM-4-P9 \$13,450 / A
3/60xx-4-P10 Includes the following: ▪ Sun-3/60xx workstation ▪ 504A (141-Mbyte disk)	3/60S-4-P10 \$11,950 / A	3/60M-4-P10 \$13,950 / A	3/60MQ-4-P10 \$14,950 / A	3/60HM-4-P10 \$14,950 / A
3/60xx-4-P14 Includes the following: ▪ Sun-3/60xx workstation ▪ 516A (327-Mbyte disk with 60-Mbyte 1/4-inch tape drive)	3/60S-4-P14 \$16,850 / A	3/60M-4-P14 \$18,850 / A	3/60MQ-4-P14 \$19,850 / A	3/60HM-4-P14 \$19,850 / A

NOTE: To order the above systems configured for 240V European operation, append "V4" to the order number (e.g., 3/50M-4-P5V4)

Sun-3 Desktop Workstations and Servers

Sun-3/60 Grayscale and Color Workstations

System Package	3/60G	3/60FC	3/60C
Diskless with 4 Mbytes	3/60G-4 \$12,450 / A	3/60FC-4 \$11,700 / A	3/60C-4 \$14,450 / A
3/60xx-4-P1 Includes the following: ▪ Sun-3/60xx workstation ▪ 511A (71-Mbyte disk with 60-Mbyte 1/4-inch tape drive)	3/60G-4-P1 \$17,450 / A	3/60FC-4-P1 \$16,700 / A	3/60C-4-P1 \$19,450 / A
3/60xx-4-P5 Includes the following: ▪ Sun-3/60xx workstation ▪ 514A (141-Mbyte disk with 60-Mbyte 1/4-inch tape drive)	3/60G-4-P5 \$18,950 / A	3/60FC-4-P5 \$18,200 / A	3/60C-4-P5 \$20,950 / A
3/60xx-4-P9 Includes the following: ▪ Sun-3/60xx workstation ▪ 501A (71-Mbyte disk)	3/60G-4-P9 \$15,450 / A	3/60FC-4-P9 \$14,700 / A	3/60C-4-P9 \$17,450 / A
3/60xx-4-P10 Includes the following: ▪ Sun-3/60xx workstation ▪ 504A (141-Mbyte disk)	3/60G-4-P10 \$16,950 / A	3/60FC-4-P10 \$16,200 / A	3/60C-4-P10 \$18,950 / A
3/60xx-4-P14 Includes the following: ▪ Sun-3/60xx workstation ▪ 516A (327-Mbyte disk with 60-Mbyte 1/4-inch tape drive)	3/60G-4-P14 \$21,850 / A	3/60FC-4-P14 \$21,100 / A	3/60C-4-P14 \$23,850 / A

NOTES: 1. **To order more memory:** All systems on the above table contain 4 Mbytes of memory. Sun-3/60 systems may also be ordered with a total of 8-, 12-, 16-, 20-, or 24-Mbytes of memory by changing the memory designation ("-4") in the product number to the desired amount of memory. For example, to order a Sun-3/60FC with 8-Mbytes, order 3/60FC-8 instead of 3/60FC-4. Likewise, order 3/60C-8-P5 instead of 3/60C-4-P5. The table below lists the amount to add to the list price of the base system.

When ordering additional memory for a TOTAL of:	Add:
8-Mbytes total memory	\$3,400
12-Mbytes total memory	\$6,800
16-Mbytes total memory	\$10,200
20-Mbytes total memory	\$13,600
24-Mbytes total memory	\$17,000

2. To order systems configured for 240V European operation, append "V4" to the order number (e.g., 3/60C-8-P5V4).

Sun-3/140 Workstations and Servers

System Package	3/140S	3/140M	3/140MQ (Includes OCLI filter)
Diskless with 4 Mbytes	3/140S-4 \$15,200 / A	3/140M-4 \$17,200 / A	3/140MQ-4 \$18,200 / A
Diskless with 8 Mbytes	3/140S-8 \$19,200 / A	3/140M-8 \$21,200 / A	3/140MQ-8 \$22,200 / A
3/1xx-4-P5 Includes the following: <ul style="list-style-type: none"> ▪ Sun-3/1xx-4 workstation ▪ 514D (141-Mbyte disk with 60-Mbyte 1/4-inch tape drive) 	3/140S-4-P5 \$21,700 / A	3/140M-4-P5 \$23,700 / A	3/140MQ-4-P5 \$24,700 / A
3/1xx-8-P5 Includes the following: <ul style="list-style-type: none"> ▪ Sun-3/1xx-4 workstation ▪ 104B (4-Mbyte memory expansion board) ▪ 514D (141-Mbyte disk with 60-Mbyte 1/4-inch tape drive) 	3/140S-8-P5 \$25,700 / A	3/140M-8-P5 \$27,700 / A	3/140MQ-8-P5 \$28,700 / A

- NOTES:**
1. To order systems configured for 240V European operation, append "V4" to the order number (e.g. 3/140S-4V4)
 2. You can configure the Sun-3/140 desktop workstation as a deskside system by installing the pedestal feet that are shipped with each system. (Only applicable desktop options may be added to a system.)

Sun-3 Desktop Product Options

Order Number			Description	List Price	Discount Category
3/50	3/60	3/140			
N/A	N/A	*104B	4-Mbyte main memory expansion board <i>NOTE: Maximum of two memory expansion boards per system for 3/140</i>	\$ 4,000	A

NOTES:

- * You can order these options as standalone expansion options to existing equipment by adding an X before the option number. Example: X504A is a 141-Mbyte disk ordered without a system.
- ** The X designation indicates that these options are always ordered as standalone options. Example: X251B.
- † To order systems configured for 240V European operation, append "V4" to the order number (e.g., 514AV4)

N/A *950A *950A	Meter-high cabinet	2,250	B
N/A *960B† *960B†	76-inch data center cabinet	3,900	B
TAP TAP TAP	Ethernet transceiver with 15-meter (49-ft.) branch cable and "vampire tap" cable connector <i>NOTE: TAP requires ETH-TAP-TOOL for installation.</i>	500	N/D
INLINE INLINE INLINE	Ethernet transceiver with 15-meter (49-ft.) branch cable and "N-series" inline cable connectors	500	N/D
THIN THIN THIN	Ethernet transceiver with 15-meter (49-ft.) branch cable and thin Ethernet BNC connectors	500	N/D

NOTES: Options 504, 514, 506, 515, 516, 517 and 650 are mutually exclusive.

* You can order these options as standalone expansion options to existing equipment by adding an X before the option number. Example: X615B is a 688-Mbyte disk ordered without a system.

** Not customer-installable; only available with initial system purchase.

*** Sun Customer Support will only install Option 675A at a customer's site, if option 675A is factory installed in Option 960B. Any Option 675A not ordered as a 675AR1 with an option 960B must be installed by the customer.

† Append an "R1" to the order number of these options if they are ordered with a data center cabinet and they are to be factory installed in the cabinet. These options are not available in the meter-high cabinet. Example: 675A becomes 675AR1 when it is to be installed in a data center cabinet. Option 960B must also be ordered.

†† Append an "R1" to the order number of these options if they are to be factory installed in a data center cabinet, or append an "R2" if they are to be factory installed in a meter-high cabinet. Example: 670A becomes 670AR2 when it is to be installed in a meter-high cabinet. Option 950A must also be ordered. If neither "R1" nor "R2" is appended to the order number, the product will be shipped in a box, not in a cabinet. (If customer is installing option 670A in his own Meter high cabinet and it is to be mounted horizontally with the reels on the top, then order X670A and appropriate mounting hardware, without ordering the Sun cabinet, option 950A).

† To order systems configured for 240V European operation, append "V4" to the order number. Example: 605A becomes 605AV4 when it is to be configured for 240V operation. Option 670A is not available in 240V operation.

* The X designation indicates that these options are always ordered as standalone options only. Example: X410A.

Sun-3 Data Center Servers

Sun-3/180 Data Center Servers

System	3/180S
Package	
Diskless with 4 Mbytes	3/180S-4 † \$23,900 / A
3/180S-P4 Includes the following: <ul style="list-style-type: none"> ▪ Sun-3/180S-4 Data Center Server ▪ 104B (4-Mbyte memory expansion board) ▪ 960A (76-inch Data Center Cabinet) ▪ 625A (575-Mbyte disk subsystem) 	3/180S-P4 \$51,500 / A
3/180S-P11 Includes the following: <ul style="list-style-type: none"> ▪ Sun-3/180S-4 Data Center Server ▪ 104B (4-Mbyte memory expansion board) ▪ 960A (76-inch Data Center Cabinet) ▪ 629F (892-Mbyte disk subsystem) 	3/180S-P11 \$53,500 / A

- NOTES:**
1. To order systems configured for 240V European operation, append "V4" to the order number (e.g., 3/280S-P4V4). To order systems configured for 230V Domestic operation, append "V3" to the order number (e.g., 3/180S-P4V3).
 2. Any data center server that will have more than two 892-Mbyte disk drives installed must be ordered in either a 230V or 240V configuration. 115V systems support a maximum of two 892-Mbyte disk drives.

Sun-3 Data Center Servers

Sun-3/280 Data Center Servers

System	3/280S
Package	
Diskless with 8-Mbytes	3/280S-8 † \$28,900 / A
3/280S-P1 Includes the following: ▪ Sun-3/280S-8 Data Center Server ▪ 960A (76-inch Data Center Cabinet) ▪ 625A (575-Mbyte disk)	3/280S-P1 \$52,900 / A
3/280S-P2 Includes the following: ▪ Sun-3/280S-8 Data Center Server ▪ 960A (76-inch Data Center Cabinet) ▪ 625A (575-Mbyte disk) ▪ 626A (575-Mbyte expansion disk)	3/280S-P2 \$70,900 / A
3/280S-P4 Includes the following: ▪ Sun-3/280S-8 Data Center Server ▪ 108A (8-Mbyte ECC memory expansion board) ▪ 960A (76-inch Data Center Cabinet) ▪ 625A (575-Mbyte disk) ▪ 626A (575-Mbyte expansion disk) ▪ 675A (6250 bpi 1/2-inch tape)	3/280S-P4 \$93,500 / A
3/280S-P11 Includes the following: ▪ Sun-3/280S-8 Data Center Server ▪ 960A (76-inch Data Center Cabinet) ▪ 629F (892-Mbyte disk subsystem)	3/280S-P11 \$54,500 / A
3/280S-P11J Includes the following: ▪ Sun-3/280S-8 Data Center Server ▪ 960A (76-inch Data Center Cabinet) ▪ 641A (892-Mbyte disk subsystem with SMD-4)	3/280S-P11J \$54,500 / A
3/280S-P13 Includes the following: ▪ Sun-3/280S-8 Data Center Server ▪ 960A (76-inch Data Center Cabinet) ▪ 631F (2x892-Mbyte disk subsystem)	3/280S-P13 \$73,500 / A

-
- NOTES:**
- * You can order these options as standalone expansion options to existing equipment by adding an X before the option number. Example: X641A is a 892-Mbyte disk ordered without a system.
 - ** Not customer-installable; only available with initial system purchase.
 - *** Sun Customer Support will only install Option 675A at a customer's site, if option 675A is factory installed in Option 960A. Any option 675A not ordered as a 675AR1 with an Option 960A must be installed by the customer.
 - † Append an "R1" to the order number of these options if they are ordered with a data center cabinet and they are to be factory installed in the cabinet. Example: 642A becomes 642AR1 when it is to be installed in a data center cabinet. Option 960A must also be ordered.
 - ‡ To order systems configured for 240V European operation, append "V4" to the order number. Example: 642A becomes 642AR1V4 when it is to be installed in a data center cabinet and configured for 240V operation. To order systems configured for 230V Domestic operation, append "V3" to the order number. Option 670A is not available in 230V or 240V operation.
 - ‡ Data center expansion cabinets for use with 892-Mbyte drives must be ordered in 230V or 240V configurations. The 892-Mbyte drive is not supported in 115V expansion cabinets. A maximum of 2x892-Mbyte drives are supported in 115V system data center cabinets.
 - ** The X designation indicates that these options are always ordered as standalone options. Example: X645A.

Sun-4 Desktop Workstations and Servers

Diskless with 8 Mbytes Includes FPU	4/110TFCE-8 \$30,150 / A	4/110TCE-8 \$33,900 / A
4/110xx-8-P5 Includes the following: ▪ Sun-4/110xx workstation ▪ 153A (Floating point unit) ▪ 514A (141-Mbyte disk with 60-Mbyte 1/4-inch tape drive)	Not available	4/110TCE-8-P5 \$40,400 / A
4/110xx-8-P14 Includes the following: ▪ Sun-4/110xx workstation ▪ 153A (Floating point unit) ▪ 516A (327-Mbyte disk with 60-Mbyte 1/4-inch tape drive)	Not available	4/110TCE-8-P14 \$43,300 / A

- NOTES:**
1. Sun-4/110 servers are also used as building blocks for other monitor configurations. To configure a Sun-4/110HM, Sun-4/110G, or Sun-4/110MQ, order a Sun-4/110S and the appropriate monitor option.
 2. Order systems with FPU for any floating-point oriented application use.
 3. You can configure the Sun-4/110 desktop as a deskside system by installing the pedestal feet that are shipped with each system.
 4. **To order more memory:** All systems on the above table contain 8 Mbytes of memory. Sun-4/110 systems may also be ordered with a total of 16 or 32 Mbytes of memory by changing the memory designation ("8") in the product number to the desired amount of memory. For example, to order a Sun-4/110FC with 16 Mbytes, order 4/110FC-16 instead of 4/110FC-8.

When ordering additional memory for a TOTAL of:	Add:
16-Mbytes total memory	\$6,800
32-Mbytes total memory	\$20,400

5. To order systems configured for 240V European operation, append "V4" to the order number (e.g., 4/110CE-8-P5V4).

NOTES: * These options may be ordered as standalone expansion options to existing equipment by adding an X before the option number. Example: X615B is a 688-Mbyte disk ordered without a system.

** Not customer-installable; only available with initial system purchase.

*** Sun Customer Support will only install option 675A at a customer's site, if option 675A is factory installed in option 960B. Any option 675A not ordered as a 675AR1 with an option 960B must be installed by the customer.

*. The X designation indicates that these options are always ordered as standalone options. Example: X410A.

† Append an "R1" to the order number of these options if they are ordered with a data center cabinet and they are to be factory installed in the cabinet. These options are not available in the meter-high cabinet. Example: 675A becomes 675AR1 when it is to be installed in a data center cabinet. Option 960B must also be ordered.

† To order systems configured for European operation, append "V4" to the order number (e.g., 615AV4)

INLINE	Ethernet transceiver with 15-meter (49-ft.) branch cable and "N-series" in-line cable connectors	500	N/D
THIN	Ethernet transceiver with 15-meter (49-ft.) branch cable and thin Ethernet BNC connectors	500	N/D

NOTES: * You can order these options as standalone expansion options to existing equipment by adding an X before the option number. Example: X641A is a 892-Mbyte disk ordered without a system.

** Not customer-installable; only available with initial system purchase.

*** Sun customer support will only install option 675A at a customer's site, if option 675A is factory installed in option 960A. Any option 675A not ordered as a 675ARI with an option 960A must be installed by the customer.

† Append an "R1" to the order number of these options if they are ordered with a data center cabinet and they are to be factory installed in the cabinet. Example: 642A becomes 642ARI when it is to be installed in a data center cabinet. Option 960A must also be ordered.

† To order systems configured for 240V European operation, append "V4" to the order number. Example: 642A becomes 642AR1V4 when it is to be installed in a data center cabinet and configured for 240V operation. To order systems configured for 230V domestic operation, append "V3" to the order number.

‡ Data center expansion cabinets for use with 892-Mbyte drives must be ordered in 230V or 240V configurations. The 892-Mbyte drive is not supported in 115V expansion cabinets. A maximum of 2x892-Mbyte drives are supported in 115V system data center cabinets.

** The X designation indicates that these options should always be ordered as an standalone options. Example: X645A.

Package \ System	RR150SC	RR150FC	RR150C
	Diskless with 8 Mbytes	RR150SC-8X \$14,390 / A	RR150FC-8X \$16,640 / A
RR150xx-4X-P9 Includes the following: ▪ Sun386i/150xx-4X workstation ▪ RR133 (91-Mbyte disk)	RR150SC-4X-P9 \$12,990 / A	RR150FC-4X-P9 \$15,240 / A	RR150C-4X-P9 \$17,240 / A
RR150xx-4X-P11 Includes the following: ▪ Sun386i/150xx-4X workstation ▪ RR134 (327-Mbyte disk)	RR150SC-4X-P11 \$16,990 / A	RR150FC-4X-P11 \$19,240 / A	RR150C-4X-P11 \$21,240 / A

Sun386i Expansion Unit (Packaged Price)

RREXP Includes the following: ■ RR127 (Expansion Unit) ■ RR132 (60-Mbyte 1/4-inch tape)	RREXP \$2,000 / A
RREXP-P7 Includes the following: ■ RR127 (Expansion Unit) ■ RR134 (327-Mbyte disk) ■ RR132 (60-Mbyte 1/4-inch tape)	RREXP-P7 \$8,000 / A

- NOTES:**
- Expansion Unit packaged price applies only when ordered with Sun386i system package.
 - Export:** To order Export version of system or expansion unit, append "E" to the product number (e.g., RR150M-4-P9E, REXP-P7E). Export version is 240V and includes exportable SunOS.
You **MUST** order country kit from System Options menu as separate \$220 line item. Subtract \$220 from package system list price to compensate for cost of country kit.
 - More memory:** Memory designation in product number can only be "-8-" diskless or "-4-" or "-8-" diskfull (NO "-12-" or "-16-"); main memory above 8-Mbytes must be ordered as a separate line item:

System Memory	RR150 (3 MIP) -Dynamic memory board-		RR150X (4 MIP) RR250 (5 MIP) -XP Cache memory board-	
	Diskless	-P9, -P11	Diskless	-P9, -P11
4-Mbytes total	not offered as package	■ order -4- package	not offered as package	■ order -4- package
8-Mbytes total	■ order -8- package	■ order -8- package (add \$3,400 to -4- package price)	■ order -8- package	■ order -8- package (add \$3,400 to -4- package price)
12-Mbytes total	■ order -8- package ■ order RR108 \$3,600	■ order -8- package (add \$3,400 to -4- package price) ■ order RR108 \$3,600	■ order -8- package ■ order RR107 \$3,400	■ order -8- package (add \$3,400 to -4- package price) ■ order RR107 \$3,400
16-Mbytes total	■ order -8- package ■ order RR108 \$3,600 ■ order RR109 \$3,400	■ order -8- package (add \$3,400 to -4- package price) ■ order RR108 \$3,600 ■ order RR109 \$3,400	■ order -8- package ■ order two RR107 \$6,800	■ order -8- package (add \$3,400 to -4- package price) ■ order two RR107 \$6,800

- All Sun386i system configurations include a 1.44-Mbyte 3.5" diskette drive and owner's documentation set. Disks have SunOS core system/DOS preloaded, SunOS right-to-use license (SYSLx) must be ordered separately.
- Systems are shipped without frame buffer or memory card installed. Factory installation can be ordered as a separate line item from Systems Options menu (RRINSTALL, \$350).
- At least one tape drive per network is recommended (for disk backup).
- At least one copy of Application SunOS and documentation per site is recommended (see System Software Distribution).

Sun386i/250 Workstations

Sun386i/250 Workstations

System Package	RR250M	RR250FC	RR250C
Diskless with 8 Mbytes	RR250M-8 \$16,140 / A	RR250FC-8 \$18,390 / A	RR250C-8 \$20,390 / A
RR250xx-4-P9 Includes the following: ▪ Sun386i/250xx-4 workstation ▪ RR133 (91-Mbyte disk)	RR250M-4-P9 \$14,740 / A	RR250FC-4-P9 \$16,990 / A	RR250C-4-P9 \$18,990 / A
RR250xx-4-P11 Includes the following: ▪ Sun386i/250xx-4 workstation ▪ RR134 (327-Mbyte disk)	RR250M-4-P11 \$18,740 / A	RR250FC-4-P11 \$20,990 / A	RR250C-4-P11 \$22,990 / A

Sun386i Expansion Unit (Packaged Price)

RREXP Includes the following: ▪ RR127 (Expansion Unit) ▪ RR132 (60-Mbyte 1/4-inch tape)	RREXP \$2,000 / A
RREXP-P7 Includes the following: ▪ RR127 (Expansion Unit) ▪ RR134 (327-Mbyte disk) ▪ RR132 (60-Mbyte 1/4-inch tape)	RREXP-P7 \$8,000 / A

- NOTES:**
- Expansion Unit packaged price applies only when ordered with a Sun386i system.
 - Export:** To order Export version of system or EXP-1, append "E" to the product number (e.g., RR250M-4-P9E, REXP-P7E). Export version is 240V and includes exportable SunOS; You must order country kit from System Options menu as a separate \$220 line item. Subtract \$220 from package system list price to compensate for cost of country kit.
 - More memory:** Memory designation in product number can only be "-4-" diskless or "-4-" or "-8-" diskfull (not "-12-" or "-16-"), system memory above 8-Mbytes must be ordered as a separate line item. See memory chart on previous page.
 - All Sun386i system configurations include a 1.44-Mbyte 3.5" diskette drive and owner's documentation set. Disks have SunOS core system/DOS preloaded, SunOS right-to-use license (SYSLx) must be ordered separately.
 - Systems are shipped without frame buffer or memory card installed. Factory installation can be ordered as a separate line item from Systems Options menu (RRINSTALL, \$350).
 - At least one tape drive per network is recommended (for disk backup).
 - At least one copy of Application SunOS and documentation per site is recommended (see System Software Distribution).

Sun386i System Options

Order Number	Description	List Price	Discount Category
RR100	SunVGA™ DOS Windows™ EGA/VGA option card <i>NOTE: Order for color systems with 4.0.1 SunOS only 4-session AT bus board, single-session software. Order RR100-UP (n/c) for future 4-session software upgrade shipped when available.</i>	\$ 895	A
RR107	4-Mbyte SIMM memory expansion for XP Cache memory card (RR250, RR150X) <i>NOTE: Maximum of 16 Mbytes per system: XP cache memory cards hold 16 Mbytes per card.</i>	3,400	A
RR108	Dynamic memory card with 4-Mbyte memory (RR150) <i>NOTE: Second memory card for Sun386i/150, hold 8-Mbytes per card (see RR109 note).</i>	3,600	A
RR109	4-Mbyte SIMM memory expansion for Dynamic memory card (RR150) <i>NOTE: Maximum of 16 Mbytes per system: dynamic memory cards hold 8 Mbytes per card, add second dynamic memory card (RR108) for 12 or 16 Mbytes.</i>	3,400	A
RR118	Desktop Kit <i>NOTE: Converts system from deskside to desktop operation.</i>	125	A
RR135	Country Kit: European power cords, U.S. keyboard, mouse	220	B†
RR136	Country Kit: U.K. power cords, U.S. keyboard, mouse	220	B†
RR137	Country Kit: European power cords, French keyboard, mouse	220	B†
RR138	Country Kit: U.K. power cords, U.K. keyboard, mouse	220	B†
RR139	Country Kit: European power cords, German keyboard, mouse	220	B†
RR140	Country Kit: Swiss power cords, Swiss keyboard, mouse	220	B†
RR141	Country Kit: U.S. power cords, U.S. keyboard, mouse <i>NOTE: Country kits must be ordered with all Export systems; Export systems include one country kit at no additional charge.</i>	220	B†
RRINSTALL	Options installation <i>NOTE: Factory installation of frame buffer and memory card.</i>	350	N/D

- NOTES:**
- † Country kits are Discount Category A when ordered with European packaged systems.
 - 1. All system boxes contain a 1.44-Mbyte 3.5" diskette drive and owner's documentation set. Disks have SunOS core system/DOS preloaded, SunOS right-to-use license (SYSLx) must be ordered separately.
 - 2. System boxes must be ordered with a monitor; "server" configurations are not supported.

Sun386i Expansion Options

<i>Order Number</i>	<i>Description</i>	<i>List Price</i>	<i>Discount Category</i>
RR101†	15-inch Monochrome monitor and frame buffer	\$ 1,650	A
RR102†	14-inch Color monitor and frame buffer	3,300	A
RR103†	19-inch Color monitor and frame buffer	8,055	A
RR104†	19-inch Monochrome monitor and frame buffer	2,780	A
RR105†	16-inch Color monitor and frame buffer	5,055	A
RR110†	Sun386i/150 System Box with 91-Mbyte drive	9,670	A
RR111†	Sun386i/150 System Box with 327-Mbyte drive <i>NOTE: Above system boxes include dynamic memory card with 4-Mbytes, floppy drive. Monitor, keyboard must be ordered separately.</i>	14,070	A
RR112†	Sun386i/250 System Box with 91-Mbyte drive	13,245	A
RR114†	Sun386i/250 System Box with 327-Mbyte drive	17,645	A
RR116†	Sun386i/250 System Box (Diskless) <i>NOTE: Above system boxes include XP cache memory card with 4-Mbytes, floppy drive. Monitor, keyboard must be ordered separately.</i>	11,045	A
RR123†	Sun386i/150 System Box (Diskless) <i>NOTE: Above system boxes include dynamic memory card with 4-Mbytes, floppy drive. Monitor, keyboard must be ordered separately.</i>	7,470	A
RR127†	Sun386i Expansion Unit (empty)	715	A
RR128†	Sun386i Expansion Unit with 60-Mbyte 1/4-inch tape drive	2,200	A
RR129†	Sun386i Expansion Unit with 60-Mbyte 1/4-inch tape drive and 327-Mbyte disk drive	8,800	A
RR132	60-Mbyte 1/4-inch tape drive (add-on)	1,485	B
RR133	91-Mbyte disk drive (add-on)	2,200	B
RR134	327-Mbyte disk drive (add-on) <i>NOTE: Above components must be added to an existing Sun386i system or expansion unit.</i>	6,600	B
TAP	Ethernet transceiver with 15-meter (49-ft.) branch cable and "vampire tap" cable connector. <i>NOTE: TAP requires ETH-TAP-TOOL for installation.</i>	500	N/D
INLINE	Ethernet transceiver with 15-meter (49-ft.) branch cable and "N-series" inline cable connectors	500	N/D
THIN	Ethernet transceiver with 15-meter (49-ft.) branch cable and thin Ethernet" BNC connectors	500	N/D

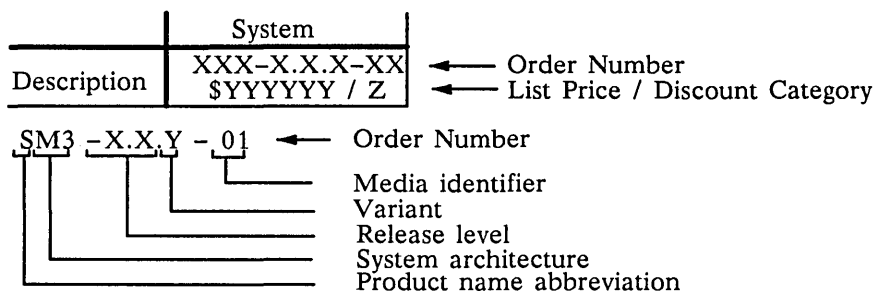

- NOTES:**
- † To order components configured for 240V European operation, append "E" to the order number - Example: RR123 becomes RR123E.
 - 1. All System Boxes contain a 1.44-Mbyte 3.5" diskette drive, owner's documentation set, SunOS/DOS right-to-use license. Disks have SunOS core system/DOS preloaded.
 - 2. System boxes must be ordered with a monitor; "server" configurations are not supported.
 - 3. Diskless system boxes should be ordered with 8 Mbytes main memory minimum.

- NOTES:**
1. These order numbers should be used for systems shipping with the SunOS release that is standard at the time the system is shipped.
 2. See following system software licenses section for right-to-use licenses.
 3. These media products apply only to systems licensed for the current standard release of SunOS, which includes the original purchase of a workstation or stand alone CPU board accompanied by the appropriate right-to-use license for that system.
 4. Upgrading previously purchased workstations to the latest revision of software must be done using products on the Support Services Price List.
 5. UNIX operating system-based FORTRAN (f77) and Pascal (pc) compilers are not included with SunOS 4.X. Refer to Sun FORTRAN and Sun Pascal entries in the Software Products section.
 6. Sun386i: Only the Owner's Supplement manuals are included in the Application SunOS packages SR1-A-03 and SR1-A-12. The owner's set manuals are included with the Sun386i system unit.

- NOTES:**
1. These order numbers should be used for systems to be shipped only with the latest SunOS 3.X release at the time the system is shipped.
 2. See following system software licenses section for right-to-use licenses.
 3. These media products apply only to systems licensed for the latest release of SunOS 3.X, which includes the original purchase of a workstation or stand alone CPU board accompanied by the appropriate right-to-use license for that system.
 4. Upgrading previously purchased workstations to the latest revision of software must be done using products on the Support Services Price List.
 5. SunOS 3.X is not available for the Sun386i.
 6. UNIX operating system-based FORTRAN (f77) and Pascal (pc) compilers are not included with SSI-3.X.

Software Licenses

Right-to-Use Licenses for Standard Release of Sun-2, Sun-3, Sun-4, or Sun386i System Software

Maximum Number of Concurrent Users Allowed (See Sun Object Code License for Details):

2-user	4-user	20-user	Unlimited users
SYSL2 No charge line item	SYSL4 \$600 / A	SYSL20 \$1,200 / A	SYSLUN \$2,000 / A

- NOTES:
1. All workstations ordered must include one of these licenses on the customer order.
 2. A license can only be purchased with a workstation on the same order.
 3. Licenses may be upgraded to later releases of software. (See Support Services Price List)
 4. Licenses may be upgraded later to add more users (see below).
 5. No media or manuals are included. (See System Software Distribution and System Software Documentation.)
 6. Includes the right to run lower numbered releases of system software.

License Upgrades to Add More Users

Upgrade	To			
	2-user	4-user	20-user	Unlimited users
Single-user	LU1-2 \$200 / A	LU1/2-4 \$800 / A	LU1/2-20 \$1,400 / A	LU1/2-UN \$2,200 / A
From	2-user	N/A	LU1/2-4 \$800 / A	LU1/2-20 \$1,400 / A

Manuals only	NSE-1.1-X-X-9 \$ 100 / N/D		

- NOTES:
1. Includes right-to-use license for one workstation.
 2. Supports SunOS 3.X.
 3. Obsoletes NSE 1.0 and NSE 1.05.

Right-to-Use Licenses for Workstations

NSE-X-X-X-0 \$2,200 / A

- NOTES:
1. Licenses are for one workstation.
 2. No media or manuals are included.

NSE Network Licenses

Quantity per Order	Product	Network License
1 Server Network License	NSE-X-X-X-S1	\$6,000 / N/D
5 Server Network Licenses	NSE-X-X-X-S5	\$25,000 / N/D
10 Server Network Licenses	NSE-X-X-X-S10	\$40,000 / N/D
25 Server Network Licenses	NSE-X-X-X-S25	\$70,313 / N/D
50 Server Network Licenses	NSE-X-X-X-S50	\$112,500 / N/D

- NOTES:
1. Network licenses must be purchased on a single order and only in quantities listed above.
 2. Prices are non-discountable.
 3. No media or manuals are shipped with licenses above; appropriate first node copy and manuals must be purchased separately.
 4. Licenses include right-to-install and use NSE software on the server(s). [The term server in the context of network pricing means a diskful Sun workstation with NSE loaded on while other workstations (connected to the first workstation) use that copy of the NSE via NFS.]
 5. Maximum of 20 nodes per server have the right to use NSE software, but this software must be resident on the server only.
 6. Licenses may not be purchased for resale.

Software Products

Ada

TeleSoft's TeleGen2 Ada Development System

Media and Manuals

Version Media	For Sun-3: Development Environment	For Sun-4: Development Environment	For Sun386i: Development Environment
1/4"	ATD-1.3A-34-3-5 \$7500 / B	ATD-1.3A-4-4-5 \$7500 / B	ATD-1.2-4-R-5 \$7500 / B

Manual only	ATD-1.3A-34-3-9 \$150 / B	ATD-1.3A-4-4-9 \$150 / B	ATD-1.2-4-R-9 \$150 / B

- NOTES:
1. Includes right-to-use Development Environment license for one workstation and 90 days of warranty support from the TeleSoft Support Center (619-457-2700).
 2. All of the above products have active validations on file with the Ada Joint Program Office. Validations are performed by TeleSoft.
 3. Software support including product updates are provided directly by TeleSoft.
 4. A software support contract is strongly encouraged for all customers since every Ada product requires a yearly re-validation process that necessitates product changes. Furthermore, many new Sun-specific features are being added and several new revisions of each product are expected within the next year.
 5. TeleSoft offers a one-year contract for any of the above products at \$1,620 per year. This includes automatic software updates as well as telephone support.

Right-to-Use Licenses for Workstations

For Sun-3:		For Sun-4:		For Sun386i:	
Development Environment	Runtime System Only	Development Environment	Runtime System Only	Development Environment	Runtime System Only

- NOTES:**
1. Licenses are for one gateway or node, except for CG3270, which is for one terminal session.
 2. No media or manuals are included.

SunLink Software Licensing Policies

Consider the following when ordering SunLink software:

Gateway Products

Transparent gateways: Some SunLink products provide transparent communication services to a TCP/IP internetwork. They allow any node on the internetwork to access the communication services as if they were local. Only one copy must be purchased for a communication gateway to service the entire internetwork. The following products provide transparent network access: SNA3270, BSC3270, Local 3270, SNA Peer-to-Peer, BSCRJE, MHS, IR, and DDN.

Some transparent gateway products include client and server components. One right-to-use license allows server programs to run on one gateway only, yet permits copying client programs to other nodes. The following SunLink products are client/server products: SNA3270, BSC3270, Local 3270, SNA Peer-to-Peer and BSCRJE.

Non transparent gateways: X.25 may be purchased on a gateway basis, but users on remote Sun nodes must log into the X.25 gateway to access its services.

Per Node Products

The following SunLink products must be purchased on a per node basis: DNI, TE100, and OSI.

Concurrent Usage Products (SunLink CG3270)

SunLink CG3270 is purchased on a concurrent usage basis. Customers license each CG3270 terminal session that will be used in conjunction with a SunLink 6.0 or 6.1 3270 communication gateway. Since CG3270 uses the NeWS network-based window system, a CG3270 terminal session can be displayed on a Sun system that has NeWS installed, regardless of whether CG3270 is installed locally or on a remote Sun system. Concurrent usage licensing requires customers to purchase CG3270 software licenses only for the maximum number of concurrent CG3270 sessions that will run over a given SunLink 3270 communication gateway. Since any Sun system with NeWS installed can have a CG3270 terminal session remotely displayed on it, the number of Sun systems on the network capable of using CG3270 sessions can be much greater than the number of software licenses purchased. Thus, the number of software licenses does not limit the number of end users who can use CG3270 terminal emulation, but determines how many end users will be able to concurrently use CG3270 over the SunLink 3270 communication gateway.

- NOTES:
1. All 6.0 products require SunOS 4.0.
 2. Channel Adapter can be ordered standalone, or with Local 3270.
 3. Channel Adapter and MCP include media and manuals.
 4. The SunLink Channel Adapter is a two-VMEbus board set that provides a programmable, high-speed physical connection with an IBM mainframe via an IBM block multiplexer channel. Application programs such as SunLink Local 3270 or customer-developed emulation programs that emulate IBM control units and devices can be run on the Channel Adapter gateway system.
 5. MCP board options available for SNA3270, BSCRJE, IR, X.25, 6.0 Peer-to-Peer and DDN only.
 6. MCP can be installed in any Sun-3 or Sun-4 system with an available VMEbus slot.

Sun Channel Server - Minimum Recommended Gateway Configuration

The Channel Server configuration is the minimum recommended hardware configuration for a SunLink Channel Adapter gateway server. It is intended as an example only of how to configure and order such a system; it is not a packaged system and offers no package discount. Components must be ordered separately. If Local 3270 is to be run on the Channel Server, it must also be ordered separately.

The SunLink Channel Server configuration

Order Number	Description	List Price	Discount Category
3/150S-4	Sun-3/150S-4 Deskside Server	\$ 19,900	A
514D	141-Mbyte formatted disk subsystem with 60-Mbyte 1/4-inch cartridge tape	6,800	B
CHA-5.0-3-3-5	SunLink Channel Adapter	20,000	B

NOTES:

1. **SunLink DNI** is a node product that provides VT100 emulation and Phase IV end-node DECnet connectivity.
2. **SunLink TE100** is a node product that provides SunView-based VT100 emulation. SunLink DNI includes SunLink TE100; so it is not necessary to order TE100 for a node for which SunLink DNI has been ordered.
3. **SunLink MHS** allows users of Sun systems (or users that can access Sun's mail programs) to transparently exchange electronic messages with users on public or private networks that support the X.400 international standard for electronic mail. MHS is a gateway package.
Requirements:
 - For release 5.2 MHS, SunOS 3.2 or 3.5
 - SunLink MHS requires SunLink OSI in all cases. For release 5.2 MHS, 5.2 OSI is required
 - For release 6.0 MHS, 6.0 OSI is required.
 - For connection to X.25 subnetworks, SunLink X.25 is required
4. **SunLink OSI** is a node product that provides OSI protocols over, and network layer routing between, 802.3 and X.25 subnetworks. For connection to 802.4 subnetworks, contact SunLink Product Marketing.
Requirements:
 - For connection to X.25 subnetworks, SunLink X.25 is required. Release 5.2 OSI requires 5.2 X.25, release 6.0 OSI requires 6.X X.25
5. **SunLink X.25** is a gateway product that allows Sun-2 or Sun-3 systems to connect to public or private packet switching networks adhering to CCITT X.25 protocols. It also incorporates X.3 and X.29 specifications for terminal-to-host communication. SunLink X.25 may be used with or without the MCP board.
6. **SunLink IR** is a gateway product that allows remote Ethernets to be interconnected via wide-area transmission facilities. It gives each Sun-2 or Sun-3 workstation/server transparent, application-independent access to remote Ethernets and resources on those Ethernets. SunLink IR may or may not be used with MCP.
7. **SunLink DDN** allows a Sun workstation or server to be a host system on the Defense Data Network and communicate directly with other hosts on the network. It allows Sun systems to provide DDN host services to an Ethernet and supports the three major DDN interfaces - DDN Standard X.25, DDN Basic X.25, and 1822/HDH. SunLink DDN may be used with or without the MCP board.
8. **SunLink SNA3270** is a gateway package. SNA3270 media orders include gateway and client software for all architectures supported. SNA3270 may be used with or without the MCP board.
9. **SunLink BSC3270** is a gateway package. BSC3270 media orders include gateway software for Sun-2 and Sun-3 systems (BSC3270 5.0 media orders include client software for Sun-2 and Sun-3 systems). BSC3270 6.1 media orders include client software for Sun-2, Sun-3 Sun-4 and Sun386i systems. BSC3270 does not support the Sun-4 or Sun368i as a gateway.
10. **SunLink Local 3270** is a gateway package that must be used in conjunction with the SunLink Channel Adapter. Local 3270 5.0 media orders include gateway software for Sun-3 systems only, and client software for Sun-2 and Sun-3 systems. Local 3270 5.0 therefore supports mixed installations of Sun systems where a Sun-3 gateway can serve Sun-2 and Sun-3 clients. Requires the SunLink Channel Adapter. Local 3270 6.1 media orders include gateway software for Sun-3 and Sun-4 systems, and client software for Sun-2, Sun-3, Sun-4, and Sun386i systems. Local 3270 6.1 therefore supports mixed installations of Sun systems where a Sun-3 or Sun-4 gateway can serve Sun-2, Sun-3, Sun-4, and Sun386i clients.
11. **SunLink CG3270** is an unbundled terminal emulator-only package that must be used in conjunction with one of the SunLink 6.0 or 6.1 3270 communication gateway products (SNA 3270, BSC 3270 or Local 3270). Client Sun systems on which CG3270 sessions will be displayed require NeWS 1.1 and SunOS 4.0. CG3270 6.0 media orders include client software for Sun-2, Sun-3 and Sun-4 systems.
12. **SunLink SNA Peer-to-Peer** is a gateway package. SNA Peer-to-Peer media orders include gateway and programming library software for all architectures supported. SNA Peer-to-Peer 6.0 supports the SunLink MCP board.
13. **SunLink BSCRJE** is a gateway package. BSCRJE media orders include gateway and client software for all architectures supported. BSCRJE may be used with or without the MCP board.

Software Products

Corporate Software Licenses

- Corporate licenses must be purchased on a single order and only in quantities listed below.
- Prices are non-discountable.
- No media or manuals are shipped with licenses below; appropriate first-node copy and manuals to be purchased separately. Sun-2, Sun-3, and Sun-4 versions are covered by this license as long as the cumulative total does not exceed the number of licenses purchased.
- Licenses may not be purchased for resale.
- Licenses must be purchased by a central corporate purchaser and billed to the same address.
- Labels provided with the licenses are to be applied to the workstations licensed for the software; a central log to track the software location is required.

Media and Manuals

- Software distribution and manuals
- Right-to-use license for one SunIPC
- Keyboard template
- Full documentation
- Multi-access version for occasional MS-DOS® capability shared over the network
- Choose one of the following with each hardware unit ordered:

Version Media	For Sun-2 or Sun-3 with SunOS 3.X:	For Sun-4 with Sun Sys4-3.2	For Sun-2, Sun-3 or Sun-4 with SunOS 4.0:
1/4"	IPC-1.1-3-23-5 \$495 / N/D		IPC-1.2-4-234-5 \$495 / N/D
1/2"	IPC-1.1-3-23-6 \$495 / N/D		IPC-1.2-4-234-6 \$495 / N/D
Additional Keyboard Template and Manuals only	IPC-1.1-X-X-9 \$170 / N/D		IPC-1.2-X-X-9 \$170 / N/D

- NOTES:** Conditions or products listed in the first four notes are needed for proper use of the SunIPC Coprocessor.
1. An available VME slot on a Sun-2, Sun-3 or Sun-4 system or server.
The Sun Multibus®-based systems can access the SunIPC remotely over the network.
 2. A SunIPC or SunIPC-87 board. Choose the SunIPC-87 when running applications making use of the optional 80287 floating-point coprocessor.
 3. SunIPC software must be ordered with each SunIPC or SunIPC-87 board. Release 1.2 only operates under SunOS 4.0 and is not available on a Sun-2 as a server.
 4. A floppy disk drive or a PC on the same network with PC-NFS to load PC applications software or data files.
 5. A floppy disk drive is strongly recommended for easy SunIPC access to 5 1/4-inch PC software.
 6. The floppy drive is required for use of PC software applications requiring a software key diskette.
 7. With PC-NFS and SunIPC sharing the same network, SunIPC can use software application programs loaded via the PC, provided those programs are not copy protected.
 8. Choose the SunIPC-FPY2 when writing to 360-Kbyte diskettes. (For example: to transfer files to a PC/XT or compatible system that only reads 360-Kbyte diskettes, both versions of the floppy drive read 1.2-Mbyte and 360-Kbyte diskettes.)
 9. A remote Sun System (client) running under SunOS 4.0 can not access a Sun system hosting a SunIPC coprocessor running under SunOS 3.X. The host system must be upgraded to SunOS 4.0 for client access under SunOS 4.0.

Printers

Sun LaserWriter II

- MC68000 graphics controller with 2 Mbytes of memory
- 8-page per minute printing engine
- Supports PostScript® protocols with built-in fonts with point sizes from 4 points and up

NOTE: * *These options are packaged in lots of 10 (e.g., quantity 1 option TBC delivers 10 each barrel connectors).*

Sun OEM Board Products

Sun Standalone OEM Boards

- CPU prices include right-to-use licenses for SunOS, ONC (including NFS), SunPro™, SunView, C, Pascal, FORTRAN, SunCore and SunCGI good for up to 2 users. Multi-user UNIX operating system licenses and other software products are priced separately. Documentation kits and distribution tapes must be ordered separately.
- To qualify for Category C discounts, an OEM must have signed a CAT C addendum to OEM agreement. Under this addendum, the customer can purchase any combination of boards and systems at a given level with the appropriate discount for the category of the products purchased.

- NOTES:
1. While these products are available commercially as desktop products, they are only available as endorsed TEMPEST products in a deskside enclosure.
 2. Every system must be ordered with either a fiberoptic Ethernet interface (T-455E) or removable disk (TR-REMOV plus T-506, -510, -516, -517).
 3. To order systems configured for 240V European operation, append "V4" to the order number. Example: 3/60CT-4-H becomes 3/60CT-4-HV4 when it is to be configured for 240V operation.
 4. Each Deskside TEMPEST System requires TPQL-H.
 5. Requires DTMT
 6. Each disk subsystem requires option TR-REMOV. Hard disk drives are only available in removable peripheral modules.
 7. Option 510F/2 requires two TR-REMOV options. Each 327 hard disk is in an individual removable peripheral module. Option T-650G may not be ordered with this option.

OE-50M	Optical Ethernet cable (50m)	400	B
OE-100M	Optical Ethernet cable (100m)	650	B

- NOTES:**
- To order systems configured for 240V European operation, append "V4" to the order number. Example: 3/160CT-4-H becomes 3/160CT-4-HV4 when it is to be configured for 240V operation.
 - Every system must be ordered with either a fiberoptic Ethernet interface (T-455E), SMD disk, or removable disk (TR-REMOV plus T-506, -510, -516, -517).
 - Each Deskside TEMPEST System requires TPQL-H.
 - Requires DTMT
 - Each disk subsystem requires option TR-REMOV. Hard disk drives are only available in removable peripheral modules.
 - Option 510E/2 requires two TR-REMOV options. Each 327 hard disk is in an individual removable peripheral module. Option T-650F may not be ordered with this option.
 - Option T-605E or T-606E requires option TPQL-HEXP
 - Access to either the floppy SunIPC floppy disk drive port or the SunIPC parallel port is not available in the TEMPEST version.

Right-to-Use Licenses for SunOS MLS Release of Sun-3 or Sun-4 System Software

2-User	Unlimited Users
SYSL2-MLS \$3,000/A	SYSLUN-MLS \$5,000/A

- NOTES:**
1. All workstations ordered must include the standard SunOS RTU license (e.g. SYSL2) and the SunOS MLS RTU license.
 2. SunOS MLS and SunOS are mutually exclusive and each are complete releases. One is not a prerequisite for the other.
 3. A license for SunOS MLS can be purchased for existing workstations.
 4. Licenses may be upgraded to later releases of software (see Support Services Pricelist).
 5. Licenses may be upgraded later to add more users (see below).
 6. No media or manuals are included.
 7. Security restrictions within SunOS MLS may cause incompatibilities with some other Sun software products.
 8. Sun LaserWriters used with SunOS MLS require secure version of LaserWriter InterfacKit (see Printers Section).

License Upgrades to Add More Users

>From 2-User to Unlimited Users

LU1-2-MLS-UN \$2,500/A

- NOTE:** 1. To upgrade software release, refer to Support Services Price List.

Secure Computing Products

Sun LaserWriter II for SunOS MLS

- Provides printer software security for SunOS MLS
- MC68000 graphics controller with 2 Mbytes of memory
- 8-page per minute printing engine
- Supports PostScript® protocols with built-in fonts with point sizes from 4 points and up
- LaserWriter Interface Kit

LaserWriter Interface Kit

- Serial cable
- TranScript™ UNIX operating system filters for *troff*, *ditroff*, *plot*, and *Diablo 630* print files
- User documentation

Version Media	LaserWriter 115 VAC	LaserWriter 240 VAC	LaserWriter Interface kit only
1/4"	LW1-MLS-01-2 \$6,400 / B	LW2-MLS-01-2 \$6,400 / B	LW-MLS-INT-01 \$1,800 / N/D
1/2"	LW1-MLS-02-2 \$6,400 / B	LW2-MLS-02-2 \$6,400 / B	LW-MLS-INT-02 \$1,800 / N/D

<i>Order Number</i>	<i>Description</i>	<i>List Price</i>	<i>Discount Category</i>
LW-21-2	Toner Cartridge for LaserWriter II - Four Pak	\$ 500	N/D
LW-21	Toner Cartridge for LaserWriter I - Four Pak	500	N/D

- NOTES:**
1. Printers that operate with SunOS MLS require this printer/TranScript package.
 2. The only difference between products (e.g. LW1-01-2 and a LW1-MLS-01-2) is the software component; all LaserWriter hardware is identical. This LaserWriter is not TEMPEST.
 3. For previously installed LaserWriters, order LaserWriter Interface Kit.
 4. Maximum discount of Sun LaserWriter is 15%.

Upgrades

Overview

The SunUpgrades Program is the exchange of a returned Sun product for an enhanced replacement product. SunUpgrades offer increased product performance at the lowest possible cost by protecting the existing investment already made in Sun technology. This section includes all upgrade products available from Sun. Each upgrade product defines a specific migration path from one product family (source) to another (destination). The available upgrade paths are organized by destination product family.

System Upgrades

System upgrades may be as simple as swapping one CPU board for another. Other upgrades may require swapping out a complete pedestal unit including CPU, memory, FPA, and other interface boards.

Memory Upgrades

Memory upgrades also may be as simple as swapping one board for another. Where noted, some upgrades may require the return of the CPU board for factory retrofit.

Mass Storage Upgrades

Mass storage upgrades offer replacement of lower capacity devices. Upgrades are also available for adding a second device in a pedestal or shoebox and adding mass storage to diskless and/or tapeless systems. Controller upgrades are also available.

Ordering Information

Orders may be placed through the local sales office or a customer may call 1-800-USA4Sun (prompt 6).

Replaced Parts

Unless otherwise noted, all upgrade prices require the return (to Sun) of the replaced parts, which become the property of Sun. The customer is responsible for packaging and return shipment within 15 days of receipt of the upgrade. If Sun does not receive the replaced parts within 15 days, the customer will be billed for the full list price of the parts replaced.

Each upgrade includes the packaging, instructions and Return Material Authorization (RMA) number necessary to ship the replaced parts back to Sun. The parts should be shipped to:

Sun Microsystems, Inc.
1550 Buckeye Drive
Milpitas, California 95035
Attn: Upgrades Department MST2-316
RMA number:

Warranty

Warranty on SunUpgrades is 90 days return-to-factory.

Installation

Customers with a Sun on-site hardware service contract receive installation of upgrades free of charge. Customers not under one of these contracts may purchase fixed-fee installation service from Sun. In either case, to request installation service, call 1-800-USA4Sun. Unless otherwise noted, fixed fee installation is \$500 per product.

Prices

Prices may change without notice.

UPG-PD-327S	Diskless to 327-Mbyte disk	7,700	B
UPG-PD-327TS	Diskless to 327-Mbyte disk plus 60-Mbyte 1/4-inch Cartridge Tape	9,700	B
UPG-PD-654S	Diskless to 2 x 327-Mbyte disks	15,000	B
UPG-PD-654TS	Diskless to 2 x 327-Mbyte disks plus 60-Mbyte 1/4-inch cartridge tape	17,000	B

Notes for all above:

- Requires SunOS 3.2 or later
- For Sun-3 and Sun-4 only

71-Mbyte Disk Upgrades

UPG-PD-71	41-Mbyte to 71-Mbyte disk for pedestal	3,000	B
UPG-PD-71X	Add 2nd 71-Mbyte disk for pedestal	3,000	B
UPG-PD-71TX	Add 2nd 71-Mbyte disk plus a 60-Mbyte 1/4-inch cartridge tape for pedestal	5,000	B

Note for all above:

- For Sun-3 only

141-Mbyte Disk Upgrades

UPG-SB-141	71-Mbyte to 141-Mbyte disk for shoebox	3,500	B
UPG-SB-141T	71-Mbyte to 141-Mbyte disk plus 60-Mbyte 1/4-inch cartridge tape for shoebox	5,500	B
UPG-PD-141	41- or 71-Mbyte to 141-Mbyte disk for pedestal	3,500	B
UPG-PD-141X	Add 2nd 141-Mbyte disk to pedestal	4,800	B
UPG-PD-141T	41- or 71-Mbyte to 141-Mbyte disk plus a 60-Mbyte 1/4-inch cartridge tape for pedestal	5,500	B
UPG-PD-141TX	Add 2nd 141-Mbyte disk plus 60-Mbyte 1/4-inch cartridge tape for pedestal	6,800	B
UPG-PD-282	2 x 41- or 71-Mbyte to 2 x 141-Mbyte disks	7,000	B
UPG-PD-282T	2 x 41- or 71-Mbyte to (2) 141-Mbyte disks plus 60-Mbyte 1/4-inch cartridge tape	9,000	B

Notes for all above:

- Requires SunOS 3.2 or later
- For Sun-3 and Sun-4 only

327-Mbyte Disk Upgrades

UPG-SB-327	71- or 141-Mbyte to 327-Mbyte disk for shoebox	6,700	B
UPG-SB-327T	71- or 141-Mbyte to 327-Mbyte disk plus 60-Mbyte 1/4" cartridge tape for shoebox	8,700	B
UPG-PD-327	71- or 141-Mbyte to 327-Mbyte disk for pedestal	6,700	B

Upgrades

<i>Order Number</i>	<i>Description</i>	<i>List Price</i>	<i>Discount Category</i>
UPG-PD-327T	71- or 141-Mbyte to 327-Mbyte disk plus 60-Mbyte 1/4-inch cartridge tape for pedestal	\$ 8,700	B
UPG-PD-327X	Add 2nd 327-Mbyte disk for pedestal	7,300	B
UPG-PD-327TX	Add 2nd 327-Mbyte disk plus 60-Mbyte 1/4-inch cartridge tape for Pedestal	9,300	B
UPG-PD-654	2 x 71- or 141-Mbyte disks to 2 x 327-Mbyte disks	13,400	B
UPG-PD-654T	2 x 71- or 141-Mbyte disks to 2 x 327-Mbyte disks plus 60-Mbyte 1/4-inch cartridge tape	15,400	B

Notes for all above:

- Requires SunOS 3.2 or later
- For Sun-3 and Sun-4 only

280-Mbyte Disk Upgrades

UPG-Exp-280C	Add 2nd 280-Mbyte disk	11,700	B
UPG-280	130-Mbyte to 280-Mbyte disk	10,000	B

Notes for UPG-EXP and UPG-280:

- Requires Xylogics 451 Controller
- For Sun-3 and Sun-4 only

688-Mbyte Disk Upgrades

UPG-EXP-688-S4	280-Mbyte disk with 451 to 688-Mbyte disk with SMD-4	15,000	B
UPG-EXP-688A-S4	2 x 280-Mbyte disk with 451 to 2 x 688-Mbyte disk with SMD-4	25,000	B
UPG-EXP-688B-S4	1x280-Mbyte with 451 to 2 x 688-Mbyte disk with SMD-4	29,000	B

Notes for all above:

- To order systems configured for 240V European Operation, append (V4) to the order number (eg. UPG-EXP-688A-S4V4)
- Expansion pedestal exchange including disk and controller
- Requires SunOS 4.0 or later
- Supported on Sun-3 & Sun-4 Deskside Products only
- Supported on Sun SMD-4 Controller only
- Requires CPU Upgrade Exchange for 3/160, 3/180, 4/260 or 4/280 (See SMD-4 and 688-Mbyte disk information on page 97)
- Installed only in mass storage expansion pedestals
- No intermixing of 280-Mbyte and 688-Mbyte disks in expansion pedestal
- Maximum of 2 SMD-4 Controller's in system pedestal
- Maximum of 2 expansion pedestals per system
- No daisy chaining between expansion pedestals
- Required feature tape are included
- Required boot prom upgrade kit included as needed except for CPU Upgrade
- Customer-installable

UPG-EXP-688	Add second 688-Mbyte disk to a pedestal with 688 Mbytes	15,500	B
-------------	---	--------	---

- Must be installed by SUN qualified field service engineer

	<ul style="list-style-type: none"> ▪ Includes Disk, Cables and Tray ▪ Fixed Fee Installation \$650 ▪ Call 1-800-USA-4SUN to order installation ▪ Older Racks with lower fan require retrofit ▪ Must have 451 Controller with Rev. level F, F1, or above ▪ Requires SunOS 3.5 ▪ For Sun-3 and Sun-4 only 		

SMD-4 Controller and 688-Mbyte Disk Upgrade Information

The following information applies to ordering a CPU "no charge" upgrade when ordering the SMD-4 controller upgrade either by itself or packaged with the 688-Mbyte disk upgrade

CPU board upgrade must be ordered for all Sun-3/160, 3/180, 4/260, and 4/280 systems installed prior to 11/9/88.

For Sun-3/160 or Sun-3/180: CPU-31	For Sun-4/260 or Sun-4/280: CPU-42
------------------------------------	------------------------------------

- NOTES:**
1. CPU board upgrade is not required for any Sun-3/260 or 3/280.
 2. CPU board upgrade must be ordered at zero dollars (\$0) as a separate line item on same sales orders as SMD-4 based upgrades (i.e. UPG-SMD-4-1-575 or UPG-EXP-688-S4)

Appendix A

SMD-4 Ordering Instructions

SMD-4 based packages

- Must order SMD-4 feature tape (see matrix below).
- Must be running SunOS 4.0.

SMD-4 Options

- Standalone SMD-4 controller options (X401A or X410A) or SMD-4 based disk subsystems (i.e. X615B, X641A, etc.) must be ordered with a feature tape, boot prom and/or CPU board upgrade from matrixes below.
- All SMD-4 controllers require SunOS 4.0.
- Option X645A can only be ordered for systems already installed with option 641A or 643A.
- Option X646A can only be ordered for systems already installed with option 642A.
- 892-Mbyte standalone disk expansion subsystems with SMD-4 (X645A or X646A) are not factory installed and must be ordered as 230V or 240V by appending V3 or V4 to option number (e.g., X645AV3).

SMD-4 Feature Tape

Media	Version	Domestic Only S/W (no manuals)	Domestic or Export S/W (no manuals)
	For Sun-3: 68020 Based Systems	1/4"	FM2-4.0-05
	1/2"	FM2-4.0-06	FM2-4.0-08
For Sun-4: SPARC Based Systems	1/4"	FS1-4.0-05	FS1-4.0-07
	1/2"	FS1-4.0-06	FS1-4.0-08

NOTE: 1. One feature tape must be ordered at no charge as a separate line item on the same sales order with any SMD-4 option or SMD-4 based system package.

SMD-4 Boot Prom for Sun-3

For Sun-3/160 or Sun-3/180: X31618J \$50 / N/D	For Sun-3/260 or Sun-3/280: X32628J \$50 / N/D
---	---

- NOTES:
1. Boot prom must be ordered with any SMD-4 standalone option (e.g., X410A, X642A) for integration in any currently installed Sun-3 deskside or server system.
 2. Boot prom must be ordered as separate line item on same sales order as SMD-4 based standalone option (e.g., X410A, X642A).
 3. Boot prom is not required for any Sun-4 systems or Sun-3 systems ordered after 11-9-88.

CPU Board Upgrades

CPU board upgrade must be ordered for all Sun-3/160, 3/180, 4/260 and 4/280 systems installed prior to 11/9/88.

For Sun-3/160 or Sun-3/180: CPU-31	For Sun-4/260 or Sun-4/280: CPU-42
------------------------------------	------------------------------------

- NOTES:
1. CPU board upgrade is not required for any Sun-3/260 or 3/280.
 2. CPU board upgrade is not required for any new system shipped after 11/9/88.
 3. CPU board upgrade must be ordered at zero dollars (\$0) as a separate line item on same sales orders as SMD-4 based standalone option (e.g., X641A, X401A)
 4. CPU board upgrade includes bootProm. Do not order boot prom 31618J or 32628J when ordering CPU board upgrade.
