KEY TO LETTER CODES

<u>Letter Code</u>	<u>Description</u>
X	Designed for use by telephone companies for distribution to telephone users
Es	Envelope stuffer
IP	In Progress
Sp	Spanish Language
P	Poster

In addition to the above designations, in April 1962 Technical Bulletins and Equipment Memorandums have been published with a six digit number. The first three digits designate the divisional category; the latter three digits designate the publication number. Equipment Memorandums will have the three-letter designation replaced by numbers as they are reprinted, these are shown above the current ordering number. Example:

500-376	Superseding number when reprinted
(EM-ASI-1)	Current Ordering number

List of individual numbers and categories follows:

<u>Division Number</u>	<u>Category</u>
020	Miscellaneous and Services
030	Power and Signaling equipment
100	Test Equipment
175	Maintenance Tools and Supply equipment
200	Switching Systems and SATT
210	Key Systems
300	Transmission Systems
430	Electronic Switching Systems
440	Special service station apparatus
470	Station apparatus
500	P-A-X and P-A-B-X equipment
550	TTY and data equipment
640	Local test room-operating
650	Manual equipment
750	Buildings
755	Methods and maintenance
800	Equipment engineering

Division NumberCategory

840	Traffic studies
850	Transmission and protection engineering
945	Training information
960	Industrial Switching Systems (general literature)
961	Industrial components or products

The above prefix numbers will be used with all new publications in the Technical Bulletin or Equipment Memorandum Series and will also be added to the series whenever either a Technical Bulletin or an Equipment Memorandum is reprinted.
